

PA4M

Clamp splitters of the PAM series in the TV and Satellite band (**5-2400MHz**).

Thanks to the **exclusive fixing spring clamp**, the central connector remains integral with the rest of the mechanics, facilitating the fixing of the cable.

The new mechanics with **very small dimensions** and the clamp solution, without F connector, significantly reduce the installation footprint.

The excellent shielding guarantees the protection of the signal from LTE disturbances in the air.
