

## Kaar Mini bicycle parking

### FEATURES

Kaar Mini bicycle parking is available as modules. The modularity allows to extend the parking lot as desired and needed.

Available modules:

Module with 2 arches - suitable for parking 2-4 bicycles.

Module with 4 arches - suitable for parking 4-8 bicycles.

Bicycles can be parked on both sides and the bicycles can easily be locked from the frame.

Possible to choose different RAL colors for the arches.

Extery quality without compromise- harmonious design, carefully selected materials and engineering considered to the last detail.

### MATERIAL

The construction is available in hot-dip galvanized and powder coated steel. The hot-dip galvanizing is done according to ISO 1461:2009 standard.

RAL recommendation by designer:

RAL 1006

RAL 9001

RAL 6029

RAL 3001

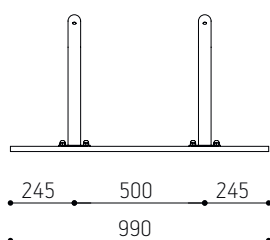

### INSTALLATION

Fix with anchors on pavement or other firm ground.

Freestanding on a firm surface.
