SPECIFICATION

Appearance (25ºC)	: Waxy
Color	: White to yellowish

PROPERTIES AND APPLICATION

Benefits:

- High degree of vegetalization
- Formation of a protective film, restoration of the skin's barrier function and immediate hydration.
- Excellent afterfeel, conferring smoothness, softness and emollience.
- It restores the elasticity and fights dry lips.
- Adhesive effect that helps increase viscosity.
- Dispersing agents with greater polarity than traditional fats.
- Excellent thermal stability.

APPLICATION

Lipstick.
The pigment used must be pre-dispersed in castor oil, at the proportion of 30 (pigment): 70 (castor oil).

SUGGESTED DOSAGE

60 – 70%

STORAGE

Keep the product in its original container in a cool, dry area, and away from direct sunlight.

SHELF LIFE

Twenty four (24) months from manufacturing date.
