Rated current 1/ 5 A can be selected by means of jumpers.  
 Transition between the two auxiliary voltage ranges can be selected by means of jumpers.  
 The thresholds of each binary input can be set via bridges.  
 If position 9=B (surface-mounting housing, 2-tier terminals on top/bottom), please order the relay with RS485 interface and separate fibre-optic converter.  
 Not available with position 9=B (surface-mounting).
