Drawer Cabinets

■ As a professional cabinet for storing tools, With large storage capacity, heavy duty load and other advantages ; The unique separation classification system has a strong visual effect .

Free Combination
Suitable for Different Working Space.

Drawer Cabinets:

- High quality Material, durable cabinet housing,
- Advanced central lock (with safety buckle) to ensure safe opening and management of drawers,
- Full width in-line handle, with label, at a glance,
- You can freely choose drawers of different heights to meet your needs,
- The interior of the drawer can be freely divided,
- Add high-strength casters and move freely,
- Add a top frame to prevent items from slipping and increase the use of space.

Mobile Cabinets:

- Heavy-duty mobile casters make our mobile cabinets easy to move, Safe and reasonable transporting tools and spare parts

Optional Color:

Feature

Central Lock Structure

- Central lock with special lock for safes, one lock can lock all drawers, Mutual opening rate up to 1/1000.

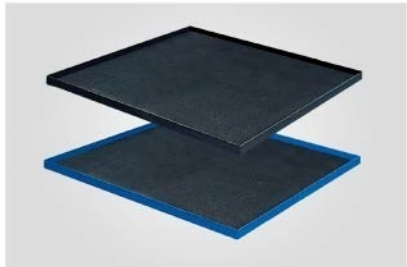

Width Handle/Safety Drawer Latches

- Label holder with transparent PVC film, easy, clean and protected label. Lock - in / lock - out latches prevent the cabinet from tipping over by blocking all other drawers when one drawer is pulled out.

Drawer Rail

- Drawer with special slide rail design, bearing principle, heavy duty capacity, easy and smooth pull-push, Three kinds of slide rails: Single-rail (EA), double-rail (VA), three-rail (LA)

Cabinet Top Trays

- With upturned edges on four sides 20mm, including black ribbed oil-proof mats.

Handle

- Reinforced nylon handle, Easy to control the cart direction, moves lightly and quickly.

Castor

- Two fixed castors and two swivel castors with locking brake, Easy to turn, easy to move Stand the impact caused by moving. Size: 4x1.25" and 4x2".

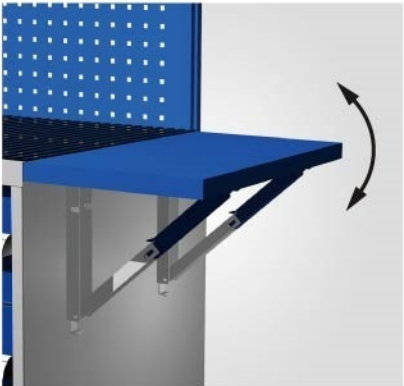

Base

- Optional base and forklift base. Prevent rust and increase load carrying capacity. Adjust the height of the drawer cabinet. Lifted and moved easily with a forklift truck.

Top pegboard (optional)

- With siding and collapse function, used with hooks, Easy for tools storage.

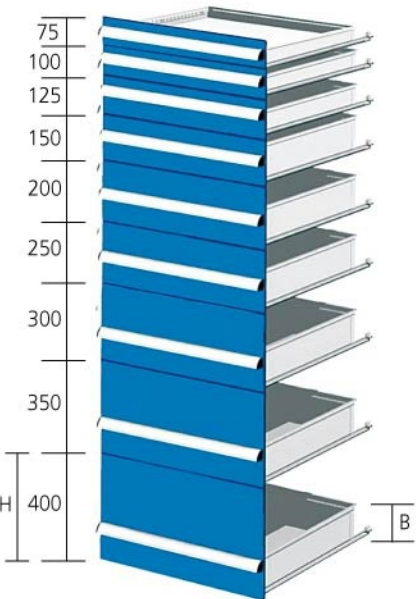

Side Foldable board (optional)

- Foldable function, increase useful space.

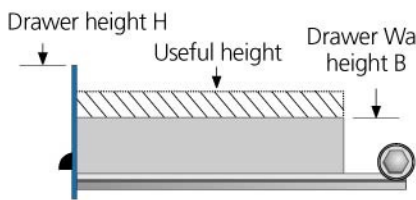

- Drawers for storing various accessories, flexible space separating, easy to store, protect the tools, improve efficiency.

Specification

Drawer Model	Cabinet Size (WxD)	Drawer Inner Size (WxD)	Useful space
CSL	411x572 mm	306x459 mm	0.140 m ²
CFL	564x572 mm	459x459 mm	0.211 m ²
CFD	564x725 mm	459x612 mm	0.281 m ²

CWL	1023x572 mm	918x459 mm	0.421 m ²
CWD	1023x725 mm	912x612 mm	0.558 m ²

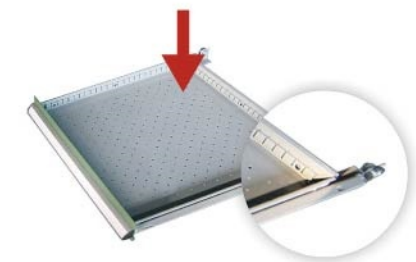

- Drawer height in 25mm multiple configuration, available sizes from 75~400mm,
- The height and number of drawers can be matched freely, plus 100mm is the height of the tool cabinet,
- Three types of drawer rails: Single-rail (EA), Double-rail (VA), Three-rail (LA), One style or three styles can be mixed.

Drawer height H	75	100	125	150	200	250	300	350	400
Drawer Wall height B	52	77	77	127	127	127	127	127	127
Useful height	Single-rail (EA)	61	86	111	136	186	236	286	386
Double-rail (VA)	54	79	104	129	179	229	279	329	379

Type of Drawers

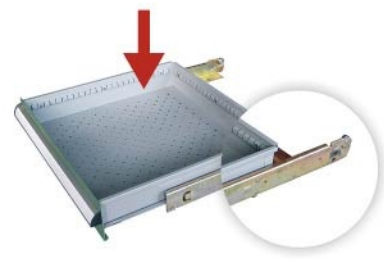

Loading Capacity 80 ~ 100kg

Single-rail Drawer (EA)

- 85% opening, Height range : 75~400mm, Used for storing tools and small spare parts, Installed on the upper of the tool cabinet , Convenient pickup.

Loading Capacity 100 ~ 140kg

Double-rail Drawer (VA)

- 100% opening, Height range: 75~400mm, Used for storing heavy tools, heavy-duty drawers, large load - bearing and application range, Installed on the lower part of the tool cabinet, avoid of the tool cabinet tilt when opening

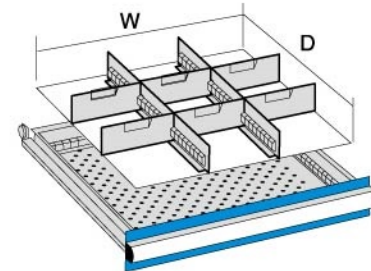

Loading Capacity 30 ~ 40kg

Three-rail Drawer (LA)

- 100% opening, Height range : 75~300mm.

Steel dividers

- Store small and medium spare parts, separated flexible by drawer partitions and dividers.

Drawer Model	Drawer height H = 75 ~ 125mm	Drawer height H >150mm
CSL	2x3	2x2
CFL	3x3	2x2
CFD	3x3	2x2
CML	3x3	2x2
CMD	3x3	2x2
CTL	3x3	2x3
CTD	3x3	2x3
CWL	3x3	2x3
CWD	3x3	2x3

Drawer Partitions

- Partitions and dividers can be easily moved and rearranged, Partitions span entire width or depth of a drawer, spacing in 17mm multiple, Fasten to drawer bottom at prepunched locations.

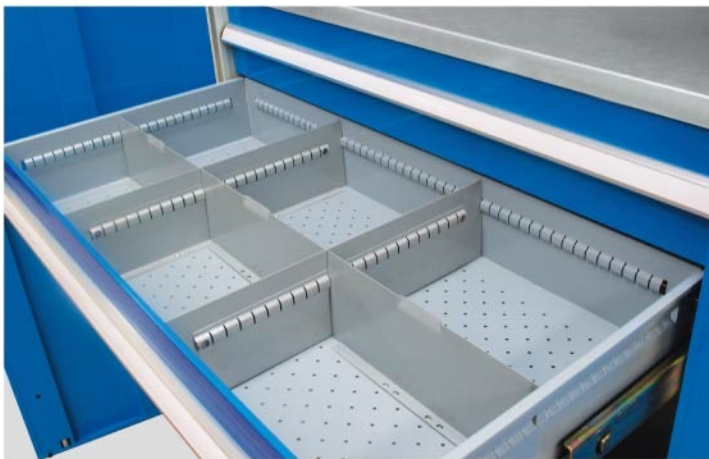

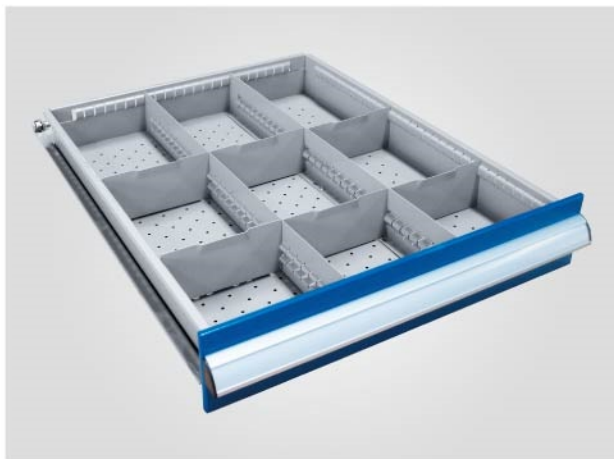

Model	Drawer Height (mm)	Partitions Height (mm)	Partitions Length (mm)
CT-001-2	75	50	456 / 609
CT-001-3	100 ~ 125	71	456 / 609
CT-001-4	150 ~ 400	121	456 / 609

Drawer Dividers

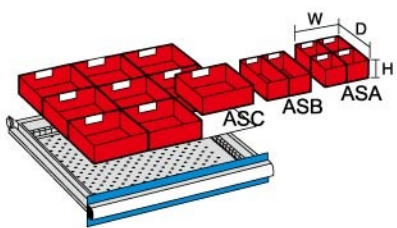

- Use with partitions to subdivide drawer space.

Model	Drawer Height (mm)	Divider Height (mm)	Divider Length (mm)
CT-002-2 (8U)	75	50	(8U)149 / (12U) 200
CT-002-3 (12U)	100 ~ 125	71	(13U) 217 / (14U) 234
CT-002-4 (13U)	150 ~ 400	121	(15U) 251 / (18U) 302

Red Plastic Bins and Dividers

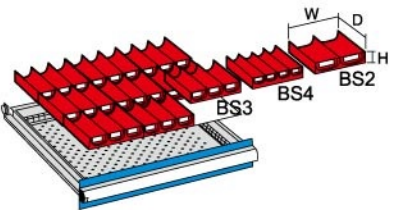

■ Ideal for storing smaller items, Bins can quickly be removed for easy handling, issuing, and counting, Suitable for drawer's height under 100mm.

Drawer Height	Model	Size (mm)	Material
50mm	ASA50	W75xD75xH25	ABS
	ASB50	W150xD75xH25	ABS
	ASC50	W150xD150xH25	ABS
75mm	ASA75	W75xD75xH45	ABS
	ASB75	W150xD75xH45	ABS
	ASC75	W150xD150xH45	ABS
100mm	ASA100	W75xD75xH70	ABS
	ASB100	W150xD75xH70	ABS
	ASC100	W150xD150xH70	ABS

Red Plastic Groove Trays and Dividers

■ Store and separate elongated items, Can be divided into compartments by groove tray and plastic dividers, Flexible separation.

Groove Tray	Model	Size (mm)	Width	Material
Two channel	BS-2	W152xD152xH35	71	ABS
Three channel	BS-3	W152xD152xH35	46	ABS
Four channel	BS-4	W152xD152xH35	33	ABS
Divider	Model	Size (mm)		Material
For two channel	BSA-2	W71xH30		ABS
For three channel	BSA-3	W46xH30		ABS
For four channel	BSA-4	W33xH30		ABS

- The new Powerway industrial cabinet product line offers the quality and versatility of modular drawer storage. Flexible, scalable, and optimized tool storage.
- Combines the functions of various work stations, such as drawer cabinets, door cabinet, shelf cabinet etc. More functions according to the different needs.

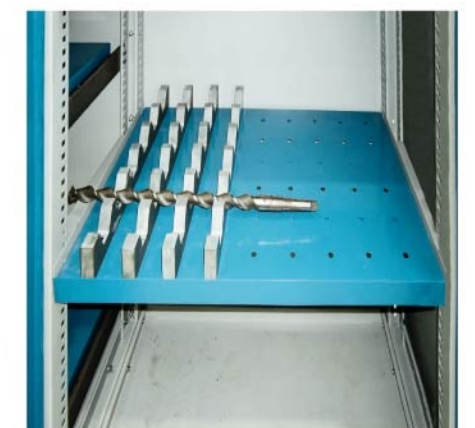

- Use the upper and lower layering structure to match the height and space,
- Railings and stair support and increased station load capacity and stability,
- All parts are fixed by bolts,
- Modular configuration, can be re-freely combined, and upgrade extension.

- Tool cabinet for storing small tools, such as small drill.

- New design of NC tool storage, Suitable for all kinds of tool holders, beautiful and convenient.

- Specially store large drills.

- Specially store screw rod, easy to access, strong visual effect.

- Specially store cutter.

- Specially store machine tools.

Intelligent Drawer Cabinet

- It is suitable for intelligent management of cutting tools, measuring tools, tools and small spare parts.
- It is the best choice for intelligent tool management in large workshop or small workshop.
- The cabinet can be placed independently when it is placed on the workshop site, or can be used side by side with multiple cabinets to make full use of the space.

Removable Intelligent Drawer Cabinet

- **Model** ODG40
- **Size** W1435×D520×H1680mm
Selectable Castor, Easy to move.
- **Configuration**
 - Indicator light for each drawer, the inner size: W170×D300×H120mm, loading capacity 20kg,
 - The MCU control lock system, can support up to 80 unit drawer cabinets,
 - The host computer uses a 17-inch industrial computer touch screen, keyboard, mouse,
 - 10 layers and 6 columns of drawers storage space, 60 categories at the same time,
 - Each column can be stored in 10 rows and 6 columns of drawers,
 - Normally, 60 categories tools can be stored at the same time,
 - Indicator light lighting when open cabinet, indicate the specific drawer position,
 - Tools quantity will be record by computer, Inventory can be inquire at any time.

Functional advantages :

- Intelligent touch screen, bar code scanning, wireless WIFI, intelligent recognition,
- Authority control,
- Automatic Location Search,
- Managed inventory,
- Safe Inventory Control,
- The database is M YSQL mode.

Intelligent Drawer Cabinet

Advantages over traditional storage cabinets:

Category	Traditional	Intelligent
Inquire time	5 min.	30 s
error rate	13%	0
Deletion rate	18%	0
Stock inquiry	5 min.	1 min.
Inventory	Large inventory	Reduced by 25%
Consumption	Uncontrollable	Controllable
Sluggish monitoring	Uncontrollable	Controllable
Cost sharing	Inaccurate	Accuracy
Material management	Complicated	Methodical

Software System Screen :

- Storage management :**
Position each material that needs to be storage.
- Inbound management :**
Material storage and model have been determined.
- Material Management :**
Import bill of materials and models, after the first import, the subsequent access management is directly selected from the list.
- Stock details :**
Stock quantity report indicates research, and it can also count as one kind of material.

- Outbound management :**
Material outbound and model have been determined.
- Lock cabinet management :**
Used during initialization and when adding ancillary cabinet.
- User details :**
User rights and login password management.
- Operation details :**
All operational actions were recorded.

First time use process :

- Establish administrator rights and passwords (level 2),
- Create a bill of materials ,make the material code into the system (can be imported from ERP),
- Named material bind to the drawer separately,
- Can use the inbound and outbound management quantity.

Normal use process :

- Login,
- Select outbound management,
- Search for materials,
- Click the Outbound button and enter the quantity,
- After confirmation, the drawer will open, and after removing (putting in) the relative amount of material, close the drawer,
- Click on the stock (receipt), finish.

Workbench

- Modular design, threaded and snap-on connection, supplied for self-assembly, The structure is sturdy, average loading is 1000kg, workbench height can be adjusted by adjustable foot, at range of 30mm,
- The desktop has anti-impact, wear-resistant, heavy load-bearing and other functions, can be equipped with LED lights, slide rails, bottom beam, bench vices, etc. to meet a variety of functions,
- Suitable for mold fitter, inspection, maintenance, assembly and other various use requirements.

WORKSHOP EQUIPMENT

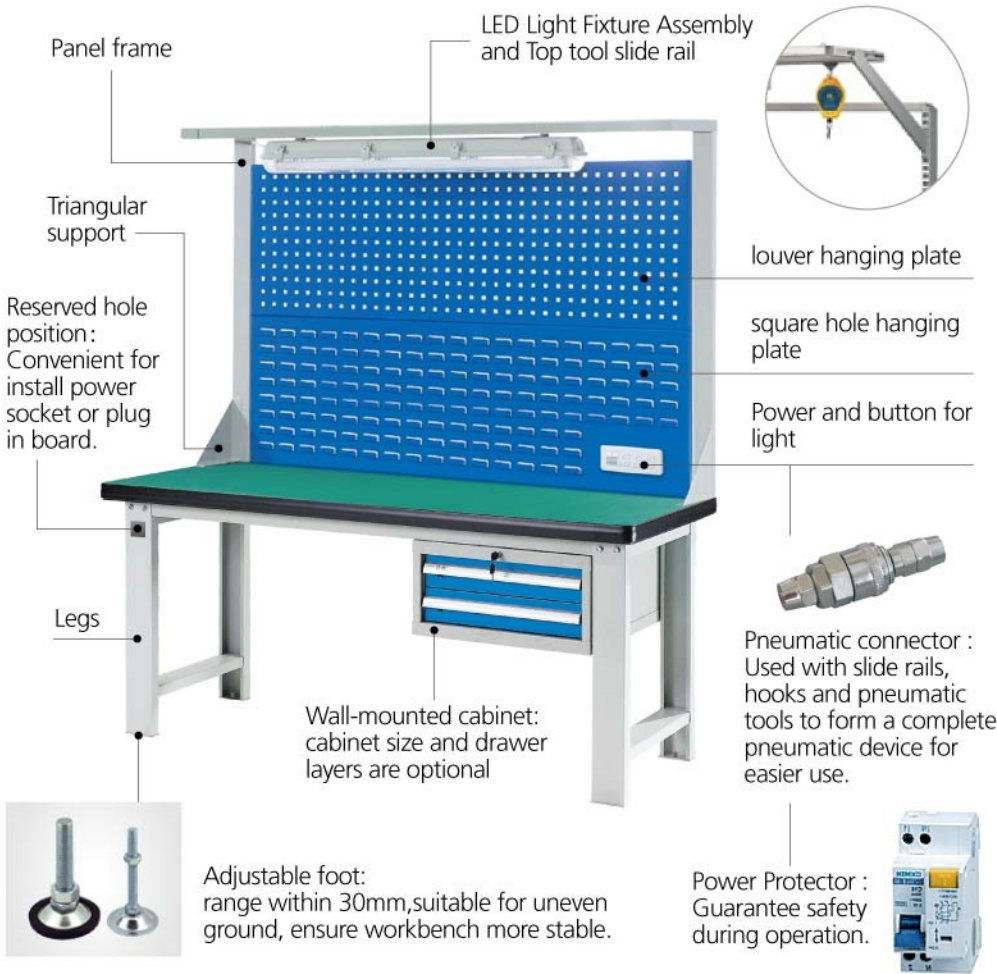

Workbench Classification:

- Loading Capacity: Standard workbench for 500kgs, heavy duty workbench for 1000kgs,
- Work Surfaces Material: green multiplex workbench, stainless steel workbench, beech wooden workbench, ESD workbench etc.
- Workbench System: basic workbench, workbench with cabinet, workbench with top panel, combined workbench, etc.
- Movable workbench: Standing workbench, movable workbench with castor, adjustable height workbench.

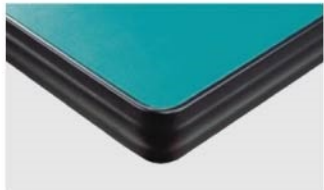

Vise:
Heavy duty workbench
with optional vise,
fixture equipment.

Workbench

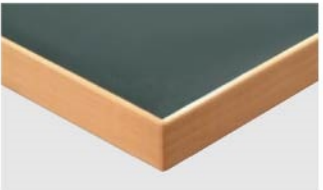

Work Surfaces for Selection:

Green multiplex work surface

Made of high-fiber board, which makes the desktop more impact-resistant. Strong plastic is edging, practical, not easy to damage, not easy to fall off.

Beech wood work surface

Imported beech wood, highly impact resistant and can be equipped with accessories such as vise.

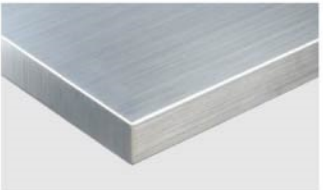

Oak Wood work surface

Imported oak, surface oak veneer, inner base material is solid multi-layer board, surface smooth and smooth, no deformation.

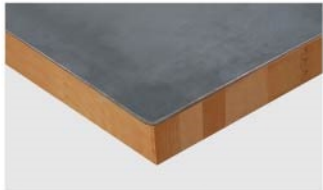

Wearable work surface

Noble, abrasion resistant, fire-proof, rolled steel sheet smooth and safe. Wide use in light electronics working place.

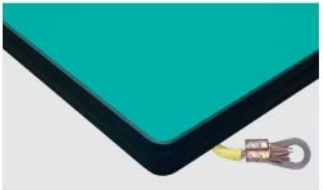

Stainless steel coatings

High strength, beautiful, durable, acid and alkali resistant, Popular in different workshop, factory, auto industrial etc.

Iron work surface

The surface is 8mm cold-rolled steel plate, high strength, wear-resistant, durable, long service life.

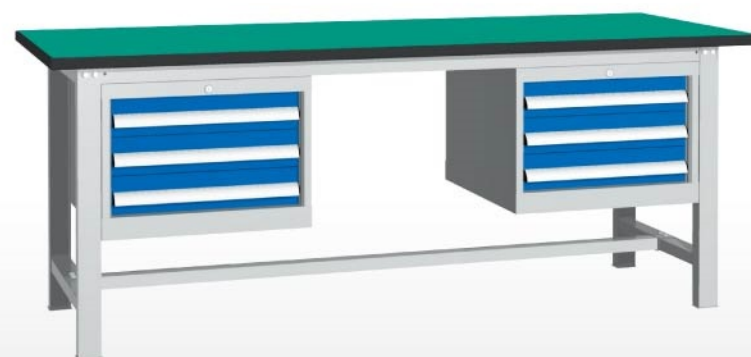

ESD work surface

Anti-static surface and volume resistivity can reach $10^{5-8} \Omega/\text{cm}^2$, suitable for most electronics industries.

Standard workbench

WWW.REZRUS.COM

- Standard workbench frame structure, legs by bending 40×60, 2mm thick high-quality cold-rolled steel plate, loading capacity is 500kg, which is sturdy and durable and widely used,
- Work surface thick 30mm, the surface material optional, high flatness, strong impact resistance, popular in different workstations,
- A variety of different height drawer combinations to meet different use requirements,
- Workbench legs can equipped with adjustment nut, use for adjust the level of the workbench,
- Modular design, threaded and snap-on Connection, supplied for self-assembly.

- Ergonomic design principle, comfortable and beautiful, and improve production efficiency,
- Modular design, accessories are freely combined and interchangeable, Standardized design, customize is available,
- Steel structure design, made of high-quality cold-rolled steel plate, durable and durable,
- After pickled and phosphate, electrostatic spraying with high-quality anti-static powder technical processing.

ESD wrist strap box

ESD workbench top

Optional accessory:

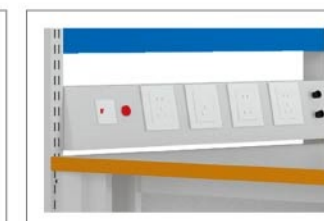

LED light frame

Provide lighting.

Y style LED light frame

Provide double-sided lighting.

Pneumatic connector

Selectable Power Socket / Button, Pneumatic connector, Power Protector etc.

Bench top cabinet

Storage cabinet, The position can be adjusted.

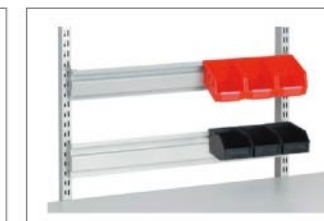

Square hole plate

Selectable hooks.

Louvered hanging plate

Selectable bins.

Bins panel

Selectable bins.

Adjustable plate

Enhanced plate, Loading capacity 80kg.

Adjustable plate

Loading capacity 30kg.

File holder

Place the A3、A4 documents and drawings.

Hinge file holder

Place the A3/A4 documents and drawings.

Screen Holder

Hanging Screen.

Bin Container

Storage bins.

Keyboard holder

Draw structure, placed at the bottom of the workbench top.

Computer holder

Loading capacity 30kg, width range between 180~225mm.

Wire groove

Closed electric wire, Network wire etc.

- Tilt box is a new design product by Powerway, which is made of high-density polyethylene (HDPE),
- The front of the box is inverted (opening angle 55°), smoothly pulled out and closed,
- Clear view, with exhibition storage function, With label groove, effectively classify and manage the storage items,
- Hanging hole design, can be used singly or wall mounted and fixed,
- Special size design, free combination, which can be combined into box group, storage cabinet, storage cart.

Platform trolley

- One of the logistics equipments commonly used in factories and warehouses to coordinate and reasonably move, store or control materials..

Steel platform trolley :

- Loading capacity 100~150 KGS,
- Leak-proof shelf, edge high 40mm,
- Two fixed castors and two swivel castors with locking brake, diameter 125mm,
- Solid rubber tire, roller bearing.

Model	DBB-001 (2 layer)	DBB-002 (3 layer)
Size	W600xD400xH810mm	W780xD460xH810mm
Plate	W600xD400 H810 / H150	W780xD460 H810 / H480 / H150

Heavy-duty trolley :

- Loading capacity 500 KGS,
- Suitable for workshop use in the factory.

Model	DBB-003	DBB-004
Size	W1050xD700xH930mm	W1250xD800xH930mm
Surface	W1050xD700 Upper: H930, bottom:H320	W1250xD800 Upper: H930, bottom:H320

Multilayer trolley :

- Loading capacity 300 KGS,
- Suitable for workshop use in the factory.

4" Noiseless castor

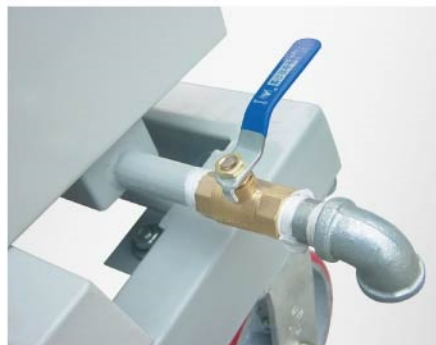

4" Steel castor

Scrap Hopper

Used to collect iron scrap produced from the machine tools, centralized management, recycling and environmental protection.

Standard Specifications :

- 4 heavy duty castor, easy move;
- Bearing structure, flexibility during loading and unloading;
- loading capacity 350KG.

Leak valve in the bottom remove to waste liquid.

Model	BTC-001	BTC-002
Size (mm)	W1000xD600xH880	W1200xD700xH970
Loading capacity	350kg	350kg
Volume	0.23m ³	0.38m ³
Remarks	Single handle	Double handles

- Red
- Blue
- green
- Light grey
- Dark grey

Self-unloading Scrap Hopper :

- Used with forklift, convenient dump industry metal scrap by controlling the forklift operating system,
- Manual hydraulic device, automatically reset after dumping, With stacking function.

Combination Bins

WWW.REZRUS.COM

- Flexible application, Can be up and down, left and right combination;
- Co-polypropylene material, light weight, long use life, working temperature range -30 ° ~ 70 °;
- Combine different kinds of use space as needed, convenient for cleaning, neat and beautiful;
- Managed with color, widely used in electronics, machinery, and pharmaceutical industries.

Left and right button connection, fixed.

Dust-proof label cover, bins column.

Standard Specifications :

Model	BX-01	BX-02	BX-03

Hanging Bins

WWW.REZRUS.COM

- Can be used alone, or hanging on the louver plate, flexible application;
- Anti-static function, anti-static surface and volume resistivity up to 106~108Ω/cm;
- Co-polypropylene material, light weight, long use life, working temperature range -30 ° ~ 70 °;
- Combine different kinds of use space as needed, convenient for cleaning, neat and beautiful;
- Managed with color, widely used in electronics, machinery, and pharmaceutical industries.

Dust-proof label cover, bins column.

Applicable with louver hanging plate.
