

2015 Catalog
World's Finest Hooks

The logo for Gamakatsu is written in a highly stylized, cursive font. The letters are filled with a dark blue color and have a white outline. The background of the entire page is black, featuring several bright blue lightning bolts that appear to be striking across the scene. The logo is positioned vertically on the right side of the page.

2014-2015 New Products

Big River Open Eye Barbless

We introduced the Big River Open Eye hook last year as a replacement hook for spoons, spinners and plugs. The advantage of the Big River Open Eye over conventional siwash hooks, is the unique hook design that features an additional bend at the bottom of the hook. This innovative design feature hooks and holds fish tight.

The “Open Eye” feature allows this hook to be easily attached to a split ring, barrel swivel, welded ring or hook hanger simply by closing the eye with a pair of pliers.

There’s been growing demand for barbless hooks across the country but particularly in the Northwest where regulations on specified waters and fisheries mandate the use of barbless hooks. Gamakatsu’s Big River Open Eye Barbless Hooks comply with these regulations.

Big River Open Eye Barbless Hooks are available in sizes, 1/0, 2/0, 3/0, 4/0, 5/0, 6/0 & 7/0 in NS Black finish. (page 24)

Four New Sizes Added To Big River Bait Hook

Gamakatsu has added sizes 1, 2, 4 and 6 to its line-up for 2015. (page 23)

Big River Bait Hook Now Available In Red Finish

Red colored hooks continue to be a popular choice for salmon, steelhead and catfish anglers. Legions of anglers nationwide feel that red hooks outperform other colors because fish react to red as a sign of injured or distressed prey.

The Big River Red is available in all sizes from size 6 up to 6/0. Red finish. (page 23)

Octopus Light Hook

We’ve answered the call for a fine wire Octopus hook, the Octopus Light for use in drop shot and trout fishing. Our Octopus Light features an offset beak point for optimal penetration with bait or plastics. The smaller diameter hook wire enhances hook penetration and is a certain advantage when fishing timid or light-biting fish.

Available in sizes 3/0, 2/0, 1, 2, 4, 6, 8 and red or NSB finishes. (page 17)

B10S Stinger Fly Hook Now Available In New Sizes

Specifically, for 2015, sizes, 8, 10, 12 and 14. (page 69)

R18-B...An Important Innovation In Barbless Fly Hook Technology

Gamakatsu’s R18-B reflects the very latest in fly hook technology. At a glance you’ll notice this barbless hook is different. The charcoal matte finish is Nano Smooth Coat, a coating that is slick, virtually frictionless and reduces resistance which enhances hook penetration. The R18-B is a true barbless hook. That is, it was designed from point to eye as a barbless hook, not just a hook that has the barb removed. That’s why the unique shape of the R18-B. The “R” refers to “retainer bend” which holds hooked fish significantly better than conventional round bend style hooks.

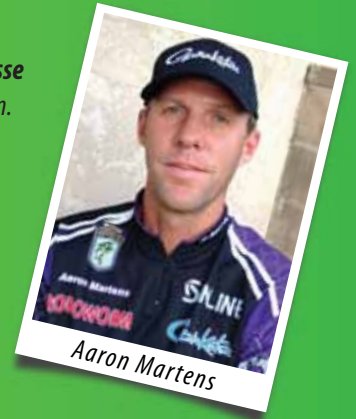

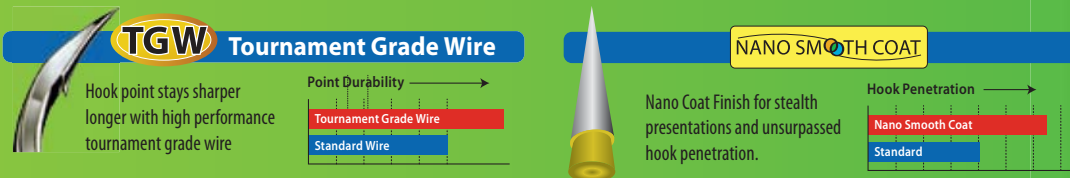

Gamakatsu’s R18-B is available in sizes 8, 10, 12, 14 and 16. Nano Smooth Coat finish. (page 69)

G Finesse... A Ground-Breaking Achievement In Hook Design
 Gamakatsu entered the market on the promise of the sharpest hooks produced. It was Gamakatsu that created the "super sharp" hook category and continues to add new application-specific hooks to its offering every year.

"Over my entire career fishing Gamakatsu I envisioned making the best finesse hook in the world. **Gamakatsu's New G Finesse Series** combine **Ultra Sharp Tournament Grade Wire** with **Nano Smooth Technology** for the ultimate in hook penetration. This new technology will take my finesse fishing to a whole new level!" ~ **Aaron Martens**

New! G Finesse Treble Hook ... Thinner, Stronger, Sharper, Better.

Gamakatsu continues to expand its ground-breaking G Finesse series hooks with the G Finesse Treble Hook. Designed by Bassmaster Elite pro, Aaron Martens, the G Finesse Treble redefines "sharp" and "effective".

Gamakatsu's G Finesse Treble Hook is patterned after traditional O'Shaughnessy style hooks. Aaron has long been a proponent of the O'Shaughnessy hook style with its distinctive acute angle at the bottom of the hook. Martens believes the addition of the O'Shaughnessy bend, hooks and holds fish better than round bend designs. He should know, a past B.A.S.S. Angler of the Year, had three second place finishes in Bassmaster's Classics and is always in the hunt on the Bassmaster Elite Tour. When you fish as much as Aaron does, small details make a big difference.

The G Finesse Treble Hooks is available in sizes 6,5,4,3 and 2. Nano Smooth Coat finish. (Page 10)

Aaron Martens Inspired G Finesse Drop Shot Hook

"I've increased my hook-up percentage by 40% ... I rarely miss a fish with this new drop shot hook. These are the sharpest, strongest, most advanced hooks of their kind on the market."

Martens has been instrumental in the development of Gamakatsu's new G Finesse Drop Shot Hook. Completely "pro-designed", Gamakatsu's new G Finesse series is a giant leap forward in fishing hook technology.

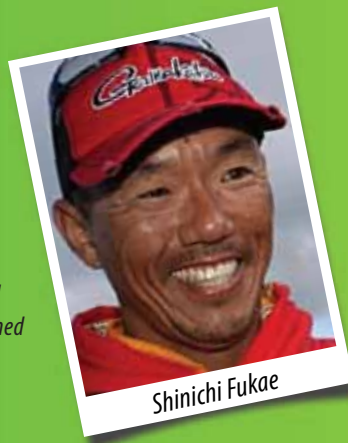

"The new G Finesse Drop Shot Hook is like Gamakatsu's standard Drop Shot Hook except that I had them pull the point more towards the eye to open up the gap. Also, the hook wire, called TGW (Tournament Grade Wire) is a smaller diameter, 20% thinner, but just as strong as their other hooks."

Gamakatsu's G Finesse Drop Shot Hooks are available in sizes, 2, 1, 1/0 and 2/0. Nano Smooth Coat finish. (Page 10)

The Gamakatsu Tournament Snap and Swivel Shot are Designed and endorsed by FLW Pro Shinichi Fukae

G Finesse Gamakatsu Tournament Snap

Gamakatsu's Tournament Snap is better by design. Primarily used on plugs for bass, walleye, salmon, stripers, steelhead, trout, panfish and other species, Gamakatsu's Tournament Snap is stainless steel and enables a full range of movement, enhancing the effectiveness of whatever plug is used. Better yet, and unlike other plug snaps, Gamakatsu's Tournament Snap will not accidentally open. The clever design of the Tournament Snap stays closed at all times as the plug eye is threaded onto the snap. It's easy and effective! Tested extensively and used under rigorous tournament conditions.

Gamakatsu's Tournament Snaps are available in two sizes, (M) Medium and (L) Large. (Page 10)

G Finesse Swivel Shot

Drop-shot fishing for bass is nothing new but Gamakatsu's approach to it is. Our all-new Swivel Shot eliminates line twist that's commonly associated with drop shotting and vastly improves rigging efficiency. Gamakatsu's produced a revolutionary new "Twist Free" design using a premium swivel above the hook. The hook, a super-sharp Gamakatsu offset point Octopus hook, is strong enough to winch big bass out of slop --- another unique attribute of their Swivel Shot system. The Easy-Change weight system below the hook improves rigging efficiency and easy leader length adjustments without retying your rig. FLW Pro Sinnichi Fukae was instrumental in the development and testing of Gamakatsu's Swivel Shot and shared that it has been an essential element in his tournament success. Without a doubt, the Swivel Shot is an enormous leap forward in drop shot fishing that's sure to maximize angler's efficiency, increase hook-ups and land trophy-sized bass without the worry posed by conventional drop shot hooks and rigging.

Available in NS Black. Sizes: 2 - 3/0 (Page 10)

G Finesse Jig Head Wacky

Gamakatsu's Jig Head Wacky is a vast improvement over other wacky jigs. The nickel/titanium weed guard is the first indication that Gamakatsu's raised the bass fishing bar. This weed guard is small but mighty as it effectively clears hazards yet maintains its shape and rigidity under the most demanding use. The jig head is an improvement as well. Better designed to resist snags the hook eye is recessed to prevent getting hung-up in structure. Even the hook is different, a custom addition that's based on a shiner hook but modified for the Jig Head Wacky. The result is a much higher ratio of hook-ups and landed fish than any other comparable brand.

Available in Black and Green Pumpkin. Sizes: 1/0-1/16, 1/0-3/32, 1/0-1/8, 1/0-3/16 (Page 10)

History of Gamakatsu

Gamakatsu started producing fish hooks in 1955. At that time, they were the smallest hook manufacturer in Japan and all of their hooks were made by hand. In 1963 they introduced a new automated heating facility which catapulted them to the forefront of the Japanese market. In 1974, they introduced fully automated hook making machines and found it necessary to build a second factory in order to meet the demand they had created.

In 1976, being well established as the leading Japanese hook manufacturer, Gamakatsu started building a new factory to produce high quality fishing rods for the Japanese market.

After upgrading the hook manufacturing machines in 1986, they expanded their product line. As a result, Gamakatsu Co. Ltd became a major manufacturer with a full line of high quality fishing rods, hooks, apparel, and fishing related items by 1987.

In 1988, after upgrading the automated tempering facilities and expanding the hook factory, Gamakatsu Co. Ltd opened Gamakatsu International Co., Ltd. in Thailand and Gamakatsu Shantou Co. Ltd. in China in 1989.

When anglers purchase Gamakatsu hooks, they are buying an original product made by GAMAKATSU. Many hook suppliers are using fabricated Japanese sounding names bought from several different manufacturers.

Market Leader GAMAKATSU

Gamakatsu is the leading fish hook manufacturer in Japan. They are constantly testing new materials, trying to improve their product which already sets the standard for the rest of the industry.

In 1992 Gamakatsu USA Inc. was established to provide Gamakatsu brand hooks to the U.S. market. Obviously, Gamakatsu is well on it's way of achieving their goal of becoming the market leader in the USA and the world!

Environment has our attention

Since 1955, Gamakatsu has strictly stuck to the theme of "Nature and Technology". We work hard to develop new, hi-tech products that benefit the outdoorsman without adversely effecting the environment.

Gamakatsu's policy of technical development has always been "the best of quality". We are always searching for new ways to make our existing products better in addition to constantly looking for unique products which are not yet available. We believe that only this attitude can give our customers the best they deserve!

All over the world

Gamakatsu products are used worldwide. With offices located around the world, Gamakatsu is able to research its markets and develop unique products that meet the needs of even the most demanding anglers.

Aaron Martens
Gamakatsu Pro

History of Gamakatsu

Invention of hooks

20,000 years ago, the invention of the fish hook marked the beginning of sport fishing. The first hooks were made of wood or bones. As technology improved, so did the hooks. Records show that copper hooks were made in Banchen 7,000 years ago and artificial flies were used in Egypt 4,000 years ago. Fishing was also a popular form of entertainment in ancient China.

Today, modern materials and manufacturing techniques have resulted in hundreds of styles of extremely high quality hooks, designed for specific types of fish and fishing methods.

Quality of hooks

Gamakatsu hooks are the corner stone of the Gamakatsu company, and are famous worldwide. Material and technology are what makes these hooks superior to all other brands. The Gamakatsu company, in conjunction with a material manufacturer, developed a material known as High Carbon steel specifically for the manufacture of fish hooks. This material not only contains a higher percentage of carbon, but also has very few impurities. As a result, GAMAKATSU has earned Anglers' trust throughout the world. The life of a fish hook is measured by the sharpness, hardness, and viscosity of the point. Using low quality materials results in points that are weak and not truly sharp. In order to use High Carbon steel, Gamakatsu developed a unique electronic tempering process which enables hooks to be tempered in a stable condition. As a result, Gamakatsu is able to manufacture consistently high quality, extremely sharp hooks in large quantities.

Hook producing

The methods used in creating Gamakatsu hooks is what makes it so superior to all other brands. First, only the most premium grade of high carbon steel is used. This insures against any blemishes in the metal which can weaken the hook.

Secondly, Gamakatsu has the most advanced tempering system in the world. Every hook is heated to the exact temperature that is perfect for that particular style and size then cooled in oil. This process produces hooks which are super strong, but not brittle. It is extremely difficult to achieve a balance between strength and flexibility, and it took many years for Gamakatsu to perfect this process.

Finally, and perhaps most importantly, our sharpening process is the most modern in the world, and results in a perfectly conical point that is unequaled in sharpness.

Simply the best

Gamakatsu's dedication to producing the highest quality fish hook made, as well as the innovation they bring to the industry has kept the company at the forefront of the premium hook market. Among the innovative ideas that Gamakatsu has introduced are:

- Durability - A unique tempering process allowing us to make a hook of superior strength and durability.
- Strength - Hooks made of high carbon steel for superior strength.
- Sharpness - Conically needle honed points that are sharp from the package and stay sharp.
- Color Variation - Colored hooks in red, blue, green, gold, nickel, bronze, black, shrimp and fluorescent colors F-red, F-chartreuse, F-pink, F-orange, F-glow, F-green, F-purple to match the color of your lure or bait.
- Style Variation - Innovative hook designs like the extra wide gap (EWG) that hook and hold fish better.

Gamakatsu makes a hook for any and every fishing situation. So go ahead, tie on a Gamakatsu because it is "Simply the best!"

Gold	LS 273201(4)	273202(4)	273203(4)

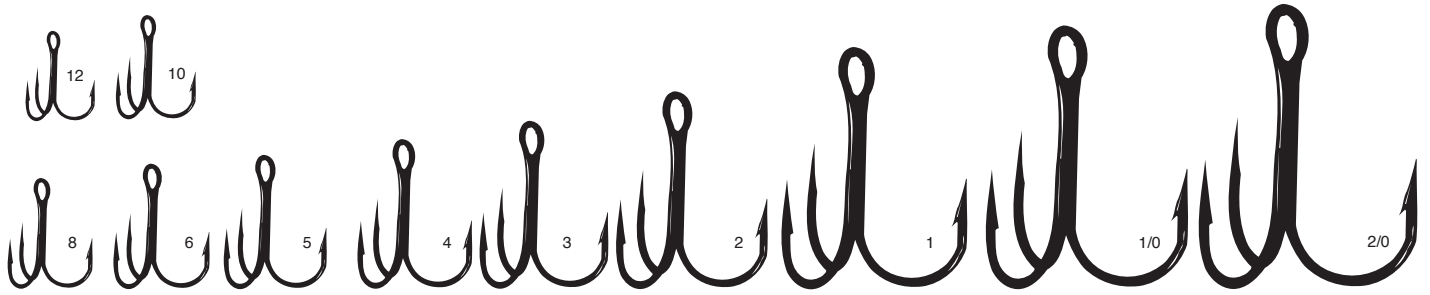

Developed for that discerning trout fishermen in mind. With the advances and popularity of artificial dough and paste type baits, it was only a matter of time that an added extra edge was needed. These high quality, sticky sharp trebles fit the bill. The light wire design will allow your bait to float higher and keep it more in the strike zone. Also, the fine wire design will allow for quick and deeper hook penetration.

EWG - EXTRA WIDE GAP

For crankbaits of all types --- there's nothing better --- it's the perfect replacement hook. First, we opened the points of this treble up slightly for even better hooking performance. The Short Shank EWG Treble converts those fish that slash at your bait into sure hook-ups. The shorter shank and wide gap design provides less room for fish to throw the hook. In fact, this attribute actually wedges the fish between the hook and the crankbait...it's the ultimate in fish holding, which means fish landing performance. That's not all. It also features Gamakatsu's exclusive "Magic Eye" that makes changing hooks a breeze. The hook's inline points run parallel to the bait creating a perfect balance point so your crankbaits run perfectly.

Treble EWG, Short Shank, 2X (Magic Eye)

Octopus Hooks, Light NEW

Gamakatsu answered the call for a fine wire Octopus hook, the Octopus Light for use in drop shot and trout fishing.

Gamakatsu's Octopus Light features an offset beak point for optimal penetration with bait or plastics. The smaller diameter hook wire enhances hook penetration and is a certain advantage when fishing timid or light-biting fish.

OFF-SET POINT

Octopus Hooks, Straight Eye, 4x Strong, Offshore

One of the more versatile hooks in our line up, this hook is built to handle big fish. Used for everything from Catfish to Tarpon, the offset beak point penetrates quickly and can be used on either bigger live baits or for chunk baits.

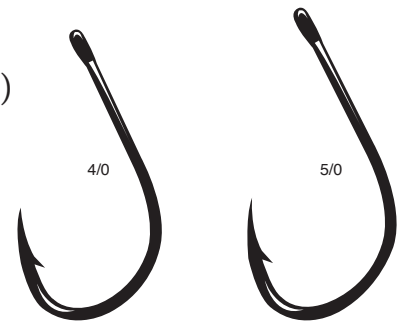

SIZES	1/0	2/0	3/0	4/0	5/0	6/0	7/0	8/0	9/0	10/0
Ns Black	LS 98411(6)	98412(6)	98413(6)	98414(6)	98415(6)	98416(6)	98417(6)	98418(6)	98419(5)	98420(5)
	25				98415-25	98416-25	98417-25	98418-25		

Octopus Hooks, Straight Eye, 4x Strong, (Inline-point)

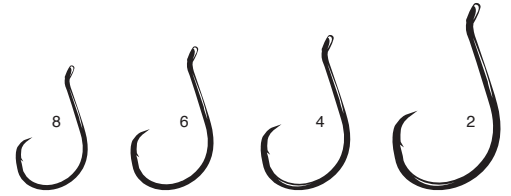

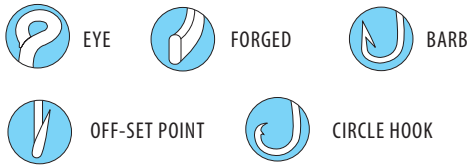

Same hook as the 4x Octopus Straight Eye, but without any offset. This makes a great trolling hook and will upgrade any trolling lures.

SIZES	4/0	5/0	6/0	7/0	8/0	9/0	10/0
Ns Black	LS 263414(6)	263415(6)	263416(6)	263417(6)	263418(6)	263419(5)	263420(5)

Octopus Hooks, Circle (Offset-point)

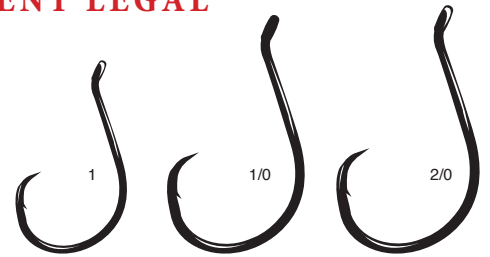

Specially designed to set in the corner of the fish's mouth, making it a great choice for the fresh and saltwater fisherman still wanting to use bait.

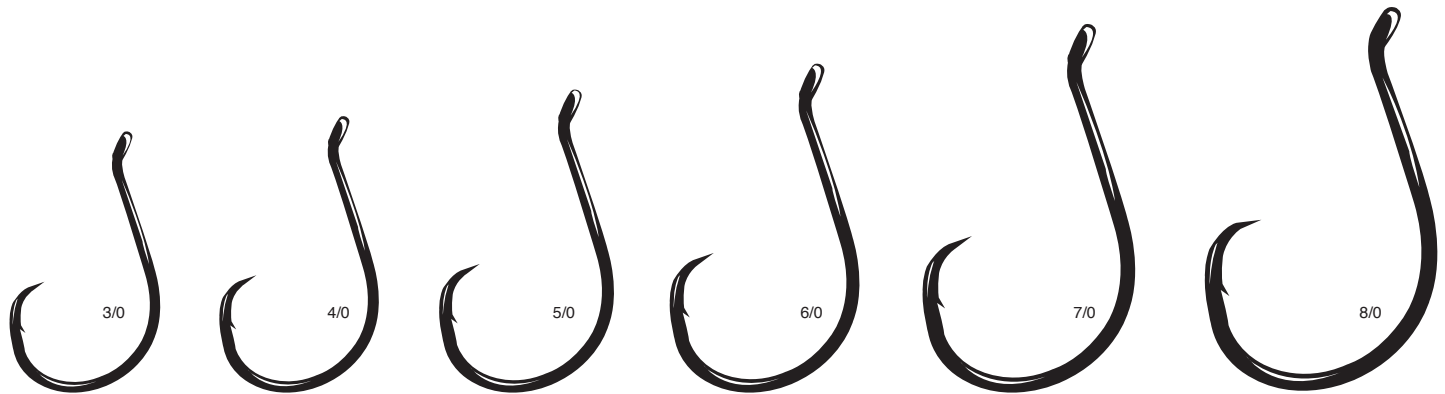

SIZES	8	6	4	2	1	1/0	2/0	3/0	4/0	5/0	6/0	7/0	8/0

	NEW PACK						

The reception to our Big River Bait Hook has been so strong that anglers immediately began asking for a siwash-style hook they could use on their spinners, spoons and plugs for salmon. The answer...this fast penetrating hook holds better than conventional hook designs. When fished barbless (which requires pinching the barb down) it's the best barbless hook you'll find. The unique Big River hook design locks fish in place when hooked. Forged for exceptional strength and built Gamakatsu sharp the Big River Open Eye is sure to make great lures even better.

Big River Bait Open Eye Barbless

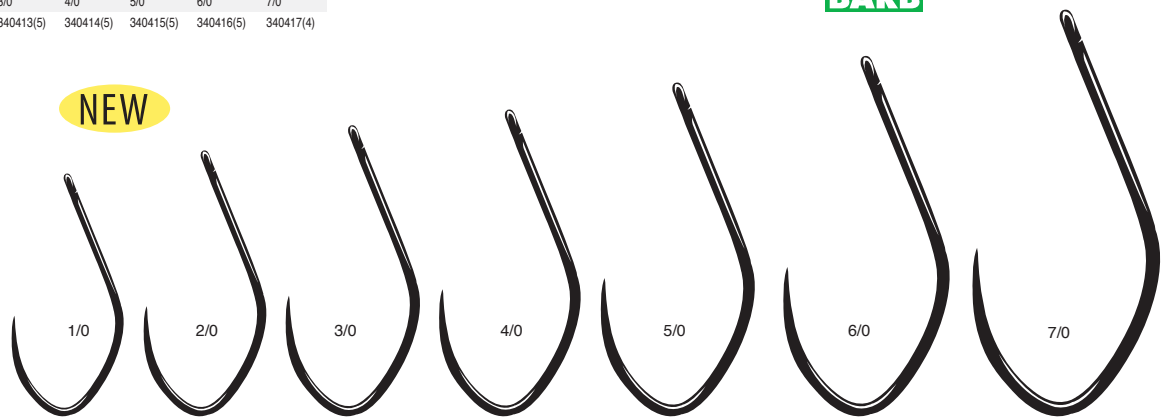

NO BARB

SIZES	1/0	2/0	3/0	4/0	5/0	6/0	7/0
NS Black	LS 340411(5)	340412(5)	340413(5)	340414(5)	340415(5)	340416(5)	340417(4)

The advantage of the Big River Open Eye over conventional siwash hooks, is the unique hook design that features an additional bend at the bottom of the hook. This innovative design feature hooks and holds fish tight.

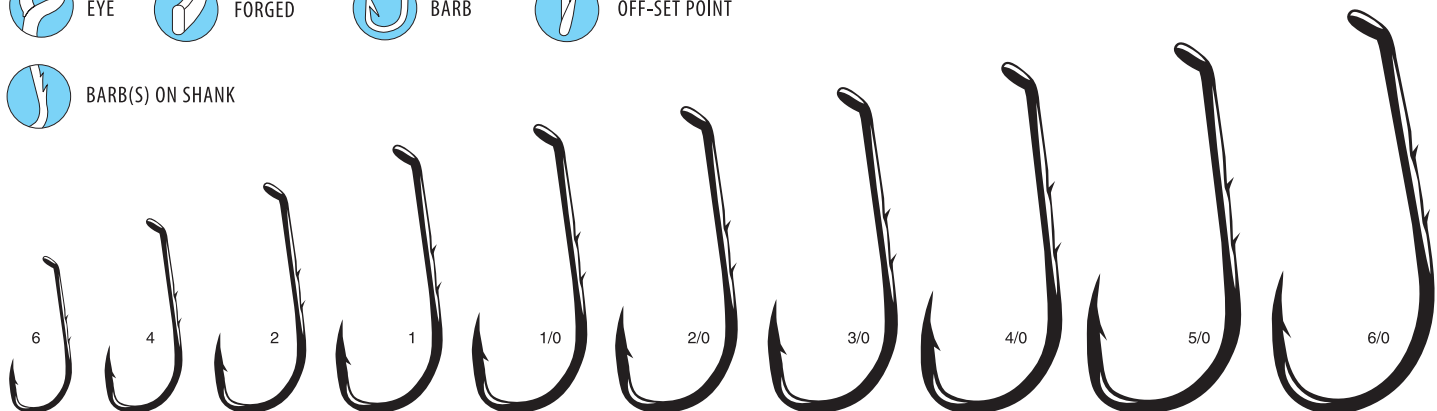

The "Open Eye" feature allows this hook to be easily attached to a split ring, barrel swivel, welded ring or hook hanger simply by closing the eye with a pair of pliers.

TW Hook

SIZES	16	14	12	10
Bronze	LS 262102(10)	262103(10)	262104(10)	262105(10)

The TW stands for “Trout Worm” and is the perfect hook for those soft plastic finesse worms that require a delicate presentation. It has the right gap to accommodate the worm and hold the fish.

Single Egg Hooks, Barb On Shank *(See page 56 for snells.)*

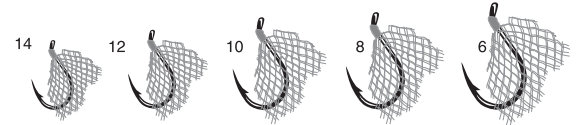

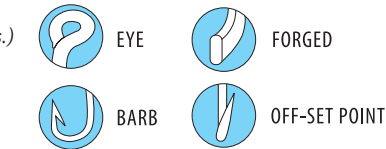

SIZES	14	12	10	8	6
Red	LS 04303(10)	04304(10)	04305(10)	04306(10)	04307(10)
	SNL 04803(10)	04804(10)	04805(10)	04806(10)	04807(10)
Gold	LS 04203(10)	04204(10)	04205(10)	04206(10)	04207(10)
	SNL 04703(10)	04704(10)	04705(10)	04706(10)	04707(10)

A premier bait hook for single eggs. Also great for floating trout bait.

Mesh Baitholder *(See page 56 for snells.)*

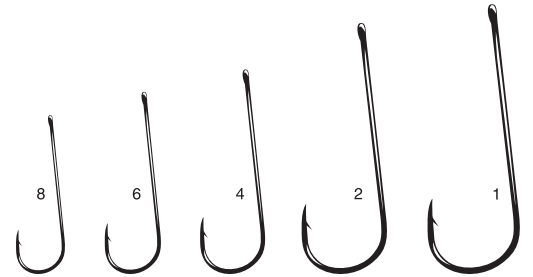

SIZES	14	12	10	8	6
Red	LS 237303(10)	237304(10)	237305(10)	237306(10)	237306(10)
	SNL 237603(3)	237604(3)	237605(3)	237606(3)	237607(3)

Designed to deal with a dough or paste type bait that doesn't want to stay on the hook. The Mesh Baitholder will take care of that problem. A Red Single Egg Hook that has a small piece of Pink nylon mesh material attached near the eye. Simply mold the bait around the shank of the hook and then press the mesh material around the bait. The barb and nylon mesh combined will hold the bait firm and won't allow it to fly off the hook when casting or get nibbled off by pesky bait stealers.

Aberdeen Hooks

SIZES	8	6	4	2	1
BRONZE	LS 09106(10)	09107(10)	09108(10)	09109(8)	09110(8)

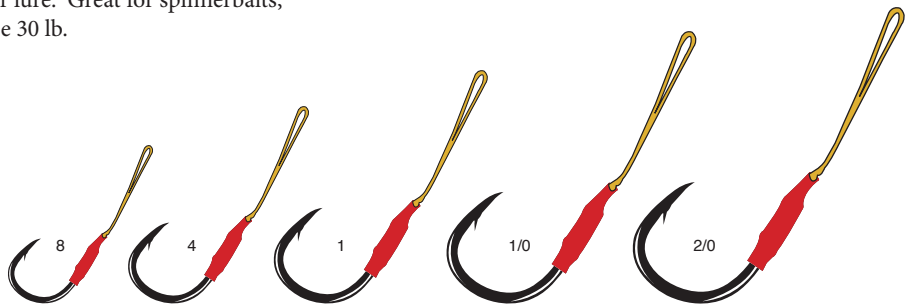

Designed with a long shank, as a light wire bait hook.

G-Stinger

SIZES	8	4	1	1/0	2/0
Ns Black	LS 219406(4)	219408(4)	219410(4)	219411(4)	219412(4)

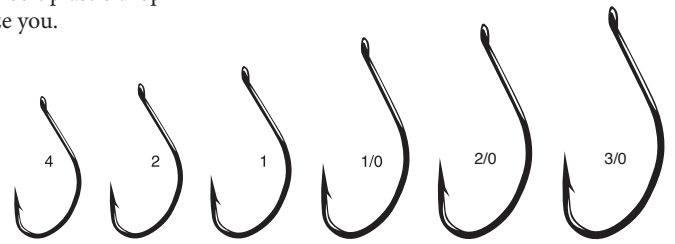

The ultimate utility hook. Easily attaches to any hook or lure. Great for spinnerbaits, buzz baits, jerkbaits and jiggging spoons. Size 8 and 4 use 30 lb. braided line, sizes 1-2/0 have a 50 lb. loop.

Split Shot/Drop Shot Hooks

The ultimate hook for nose hooking a Roboworm, small Gitzit, or any number of soft plastic drop shot baits. When it's time to get serious about finesse fishing this hook will amaze you.

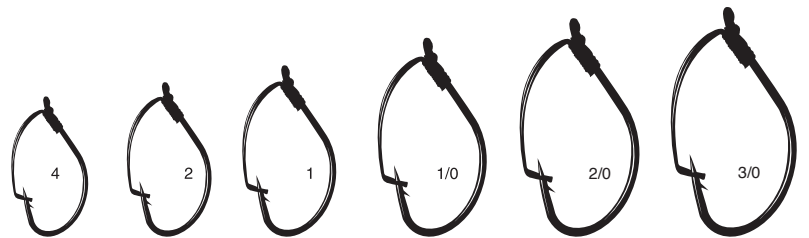

SIZES	4	2	1	1/0	2/0	3/0
NS Black	LS 50408(6)	50409(6)	50410(6)	50411(6)	50412(6)	50413(6)

Split Shot/Drop Shot Hooks Weedless

Gamakatsu has done it...again! Another fishing hook first with the introduction of the new Weedless Split Shot/Drop Shot Hook. The wide gap hook design is paired to a hair-trigger hand-tied, weed-guard for instant hook-ups. The weed guard maintains its shape and consistency fish-after-fish and is ultra-effective in staying weedless with exposed hook riggings.

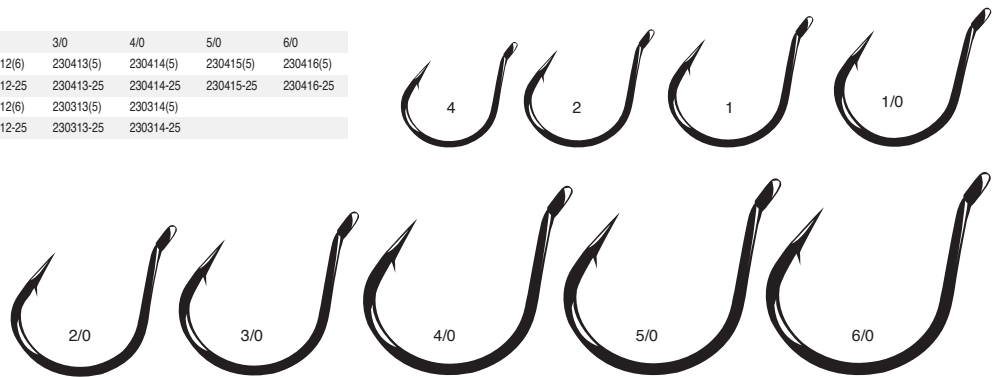

SIZES	4	2	1	1/0	2/0	3/0
NS Black	LS 50908(5)	50909(5)	50910(5)	50911(5)	50912(5)	50913(4)

Finesse Wide Gap

The perfect hook for wacky rigging for bass, also great for free drifting for salmon and steelhead with small baits.

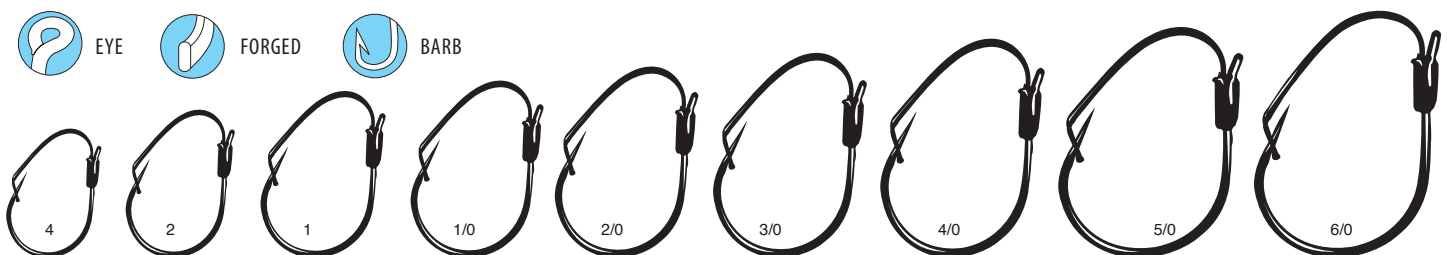

SIZES	4	2	1	1/0	2/0	3/0	4/0	5/0	6/0
NS Black	LS 230408(6)	230409(6)	230410(6)	230411(6)	230412(6)	230413(5)	230414(5)	230415(5)	230416(5)

Finesse Wide Gap, Weedless

Featuring an innovative nylon weed guard, allowing you to pitch your wacky rig into the heaviest cover.

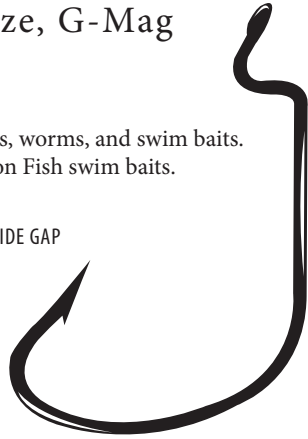

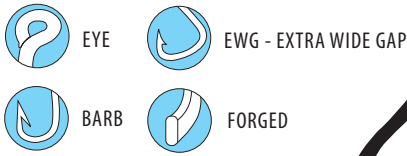

SIZES	4	2	1	1/0	2/0	3/0	4/0	5/0	6/0
NS Black	LS 230908(5)	230909(5)	230910(5)	230911(5)	230912(5)	230913(4)	230914(4)	230915(4)	230916(4)

Worm Hook, Oversize, G-Mag

SIZES	ONE SIZE ONLY 8/0	
NS Black	LS	213418(5)

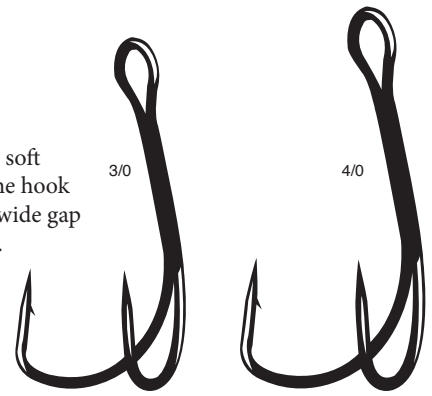

Designed to rig magnum size tubes, worms, and swim baits. This hook is standard on all Mission Fish swim baits.

EWG Double

SIZES	3/0	4/0
NS Black	LS	226413(3) 226414(3)

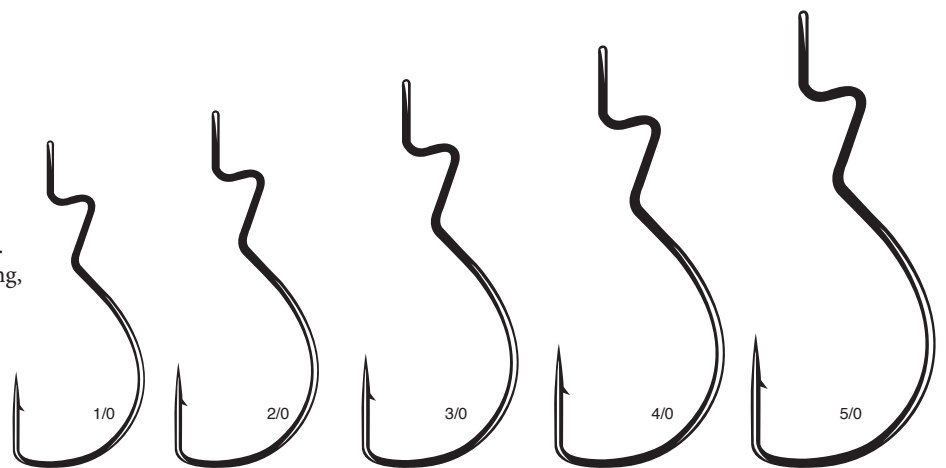

The perfect hook for all your soft bodied frogs. The angle of the hook makes it ride weedless. The wide gap increases your hook up ratio.

Worm Hook, Skip Gap

SIZES	1/0	2/0	3/0	4/0	5/0	
NS Black	LS	266411(6)	266412(6)	266413(5)	266414(5)	266415(5)
NS Black	25	266411-25	266412-25	266413-25	266414-25	266415-25

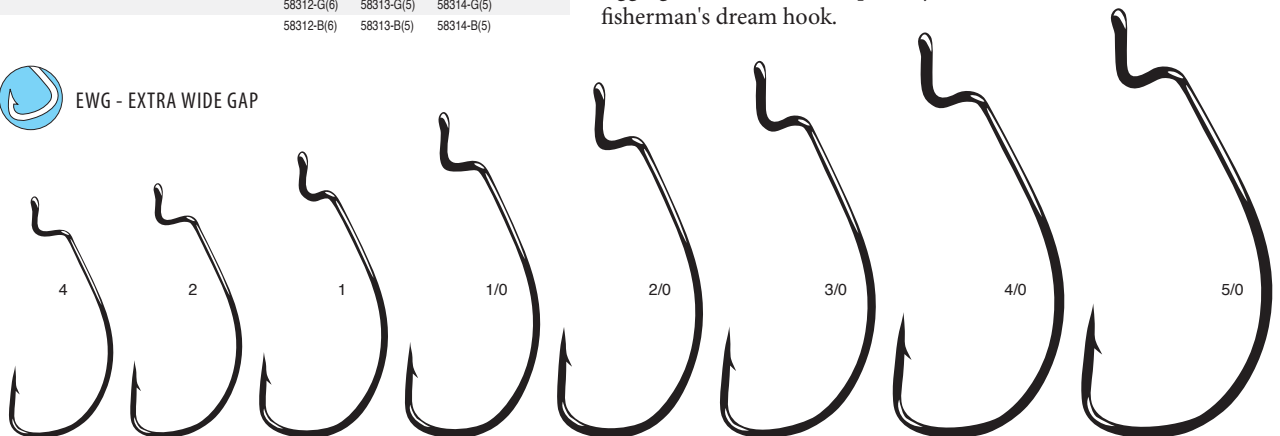

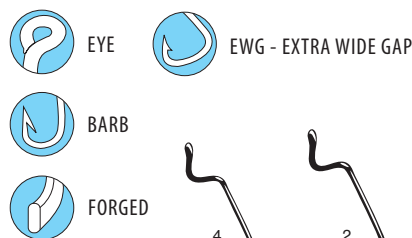

There is no better hook for skipping plastics under docks and cover. The Skip Gap is a multiple use hook that is perfect for a variety of soft plastic baits. Top water buzz frogs, Texas rigging, Carolina rigging, the Skip Gap can do it all!

SuperLine

An EWG on steroids. This high carbon heavy wire hook was designed to fish braided line in heavy cover. For serious flipping in the tulle's, overhead mats, or pads. The EWG Superline will increase your strike to hook ratio when you need to get nasty.

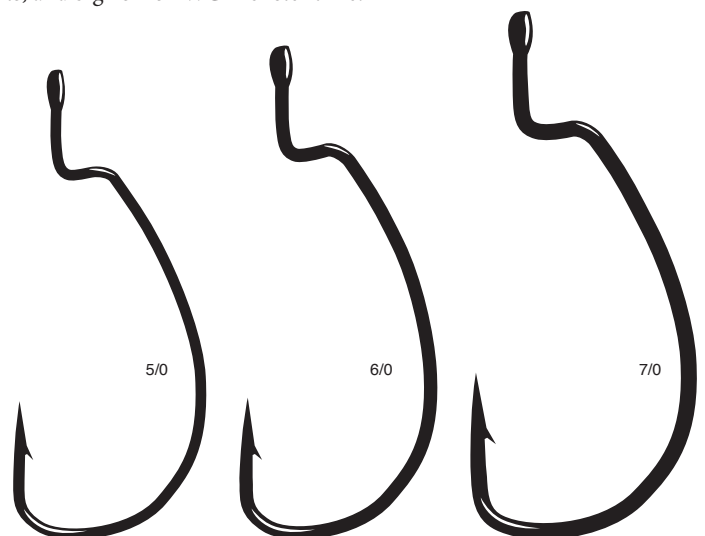

Perfect when you require a quicker descent rate without increasing size or adding weights. Want to turn up the heat with a Senko? Go with a Superline for that deadly quick descent!

Extra Wide Gap (EWG) Monster

SIZES	5/0	6/0	7/0
NS Black	LS 283415(5)	283416(4)	283417(4)

When only a high carbon heavy wire hook will do your choice should be the EWG Monster. Hard core doesn't even begin to describe the Monster. Slinging a Mission Fish back in the cover? We now have the perfect hook. Loading for bear with a giant Gitzit, Double Wide Beaver, or oversized Slug-O? The Monster has you covered. Headed to El Salto, Clear Lake, or the California Delta for double digit behemoths? Gamakatsu Monster is the choice when you are taking no prisoners. Heavy line, heavy rods, big baits, and big fish is EWG Monster time!

Extra Wide Gap (EWG) Monster, Weighted

SIZES	5/0 - 1/8	5/0 - 1/4	6/0 - 3/16	6/0 - 1/4	7/0 - 1/4	7/0 - 3/8
NS Black LS	283415-1/8(3)	283415-1/4(3)	283416-3/16(3)	283416-1/4(3)	283417-1/4(3)	283417-3/8(3)

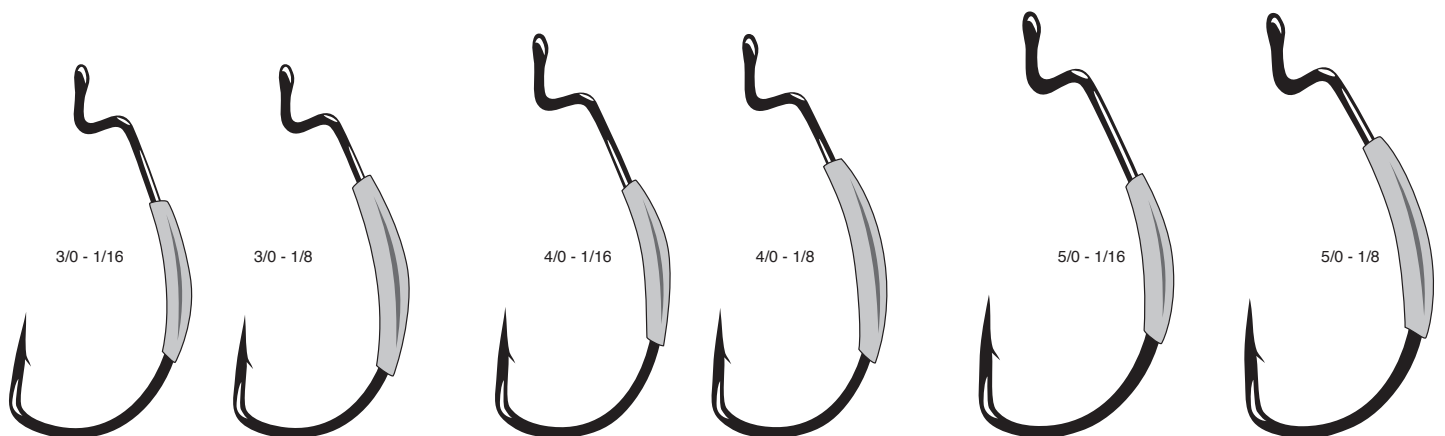

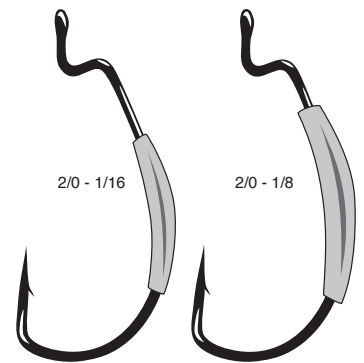

On the heels of the EWG Monster we have introduced the Weighted Monster. When the situation calls for a bulletproof weighted hook, look no further than the Monster Weighted. Strategically placed milled weights are perfectly balanced and serve as a keel for large swimbaits or any oversized offering. The hook also features a slightly higher hook point in relation to the eye to help aid in hook setting power.

Worm Hooks, Superline, Extra Wide Gap (EWG), Weighted

SIZES	2/0 - 1/16	2/0 - 1/8	3/0 - 1/16	3/0 - 1/8	4/0 - 1/16	4/0 - 1/8	5/0 - 1/16	5/0 - 1/8
NS Black LS	74412-1/16(5)	74412-1/8(5)	74413-1/16(5)	74413-1/8(5)	74414-1/16(5)	74414-1/8(5)	74415-1/16(5)	74415-1/8(5)

The Weighted EWG Superline is a perfect compliment to the EWG arsenal. Do you need more casting distance with a soft plastic frog? This hook will get you back in the junk. Want to flip into heavy cover without the hassle of pegging a bullet sinker? Consider the EWG Weighted Superline your new best friend. The Lead is strategically placed and milled to perfection.

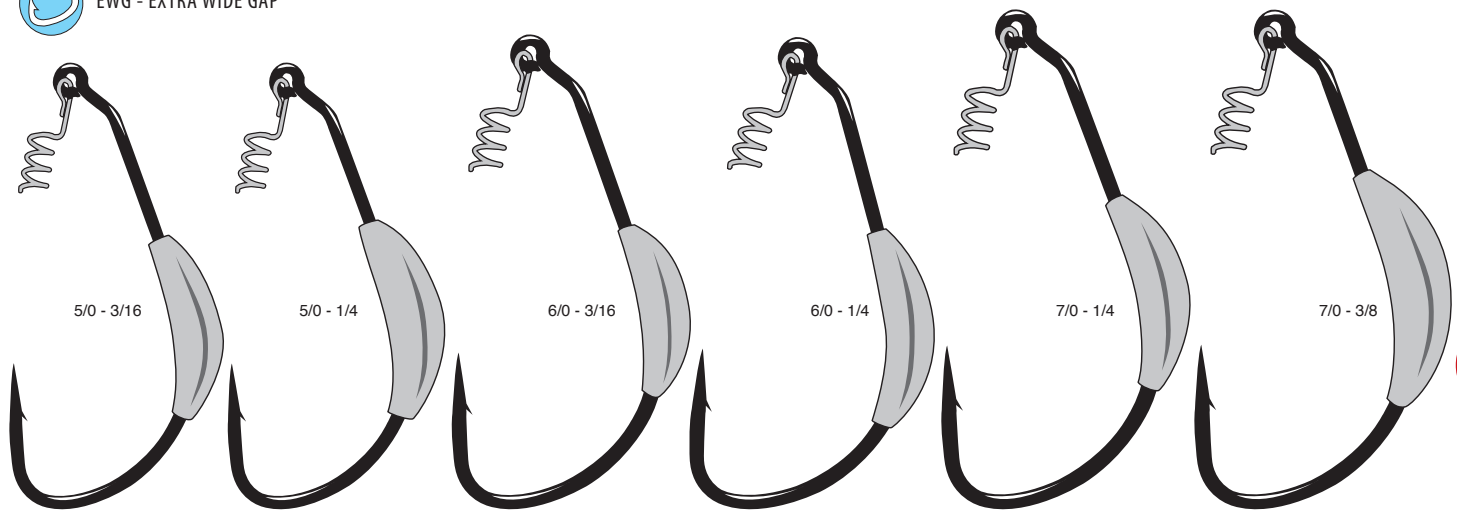

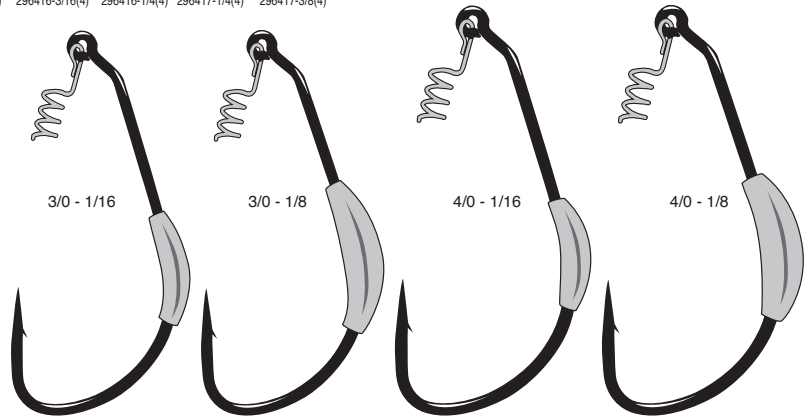

Worm Hooks, Weighted, Superline, Spring Lock

SuperLine

SIZES	3/0 - 1/16	3/0 - 1/8	4/0 - 1/16	4/0 - 1/8	5/0 - 3/16	5/0 - 1/4	6/0 - 3/16	6/0 - 1/4	7/0 - 1/4	7/0 - 3/8

EWG - EXTRA WIDE GAP

There are times when calling up fish requires a little something extra. For this purpose we designed the EWG Ringed Superline. Need to fish a Horny Toad in the slop and want it to walk? Our solid piece ring allows the bait to swing freely. Fishing a Fluke for schooling smallmouth or big spots and want that super erratic action? This is your hook. Handles braided line and heavy monofilament with ease.

Perfect round bend for a wider bite area and superior holding power.

Finesse Heavy Cover Worm with Wire Keeper

SIZES	1	1/0	2/0	3/0
NS Black	LS 311410(4)	311411(4)	311412(4)	311413(4)

The *Finesse Heavy Cover Worm Hook* is a light wire, finesse hook that features the first wide gap straight shank hook for finesse worm fishing. Just like all the Heavy Cover Hooks the *Finesse* features a welded eye and wire keeper that assures your worm doesn't slide down the hook.

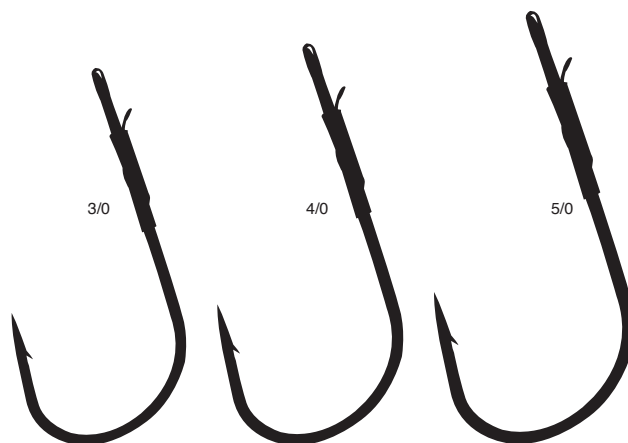

Heavy Cover Worm with Wire Keeper

SIZES	3/0	4/0	5/0
NS Black	LS 304413(4)	304414(4)	304415(4)

The new standard in Flip hooks has arrived. The new Heavy Cover Worm hook has been built to the highest standards to fight the biggest fish in the heaviest cover. The Heavy Cover Worm features our rock solid welded eye, perfect for tying a Snell knot with braid. Gamakatsu has worked with our top pros to design an improved keeper. Instead of a bulky heat shrink barb, the Heavy Cover Worm features a small wire keeper. The keeper has a small compact profile and is strategically placed for superior holding power.

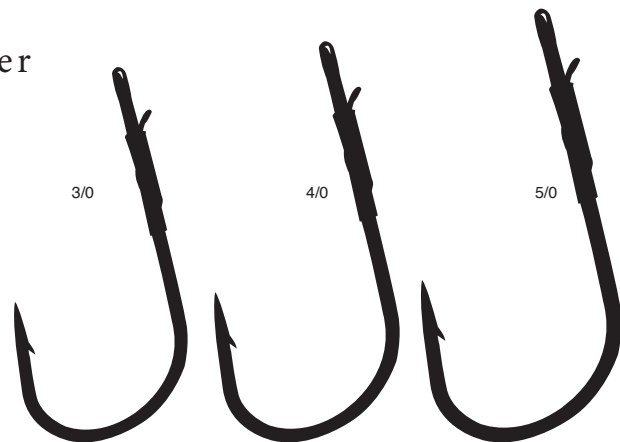

Super Heavy Cover Worm with Wire Keeper

SIZES	3/0	4/0	5/0
NS Black	LS 310413(4)	310414(4)	310415(4)

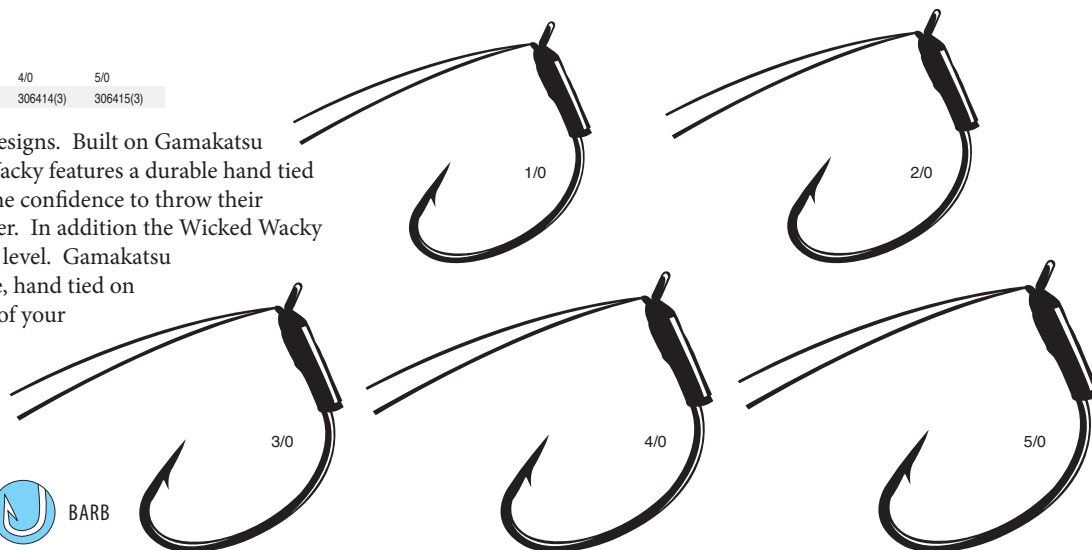

The *Super Heavy Cover Worm Hook* is indestructible with a welded eye and extra heavy duty cold-forged hook wire that will not flex. It's perfect for flipping into heavy cover or punching through thick overhead cover. The addition of an oversized barb holds hooked fish solid and the punch wire/keeper firmly secures worms so they stay rigged cast-after-cast.

Wicked Wacky

SIZES	1/0	2/0	3/0	4/0	5/0
NS Black	LS 306411(3)	306412(3)	306413(3)	306414(3)	306415(3)

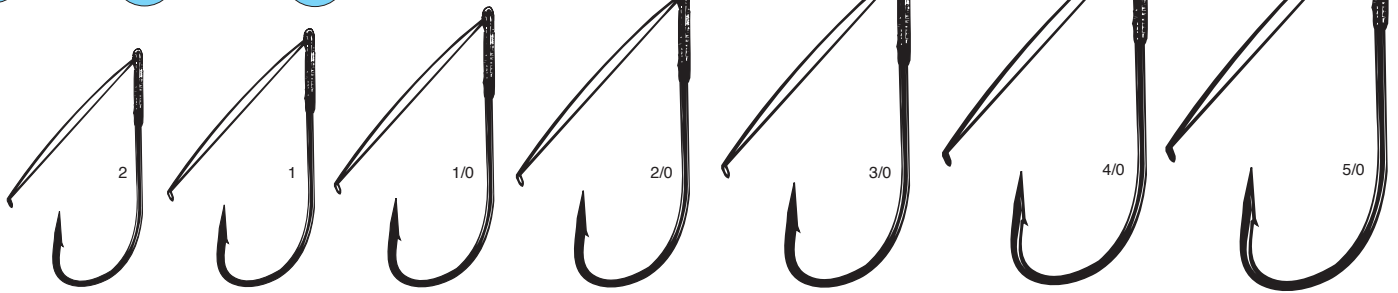

The new standard in wacky hook designs. Built on Gamakatsu proven Shiner hook, the Wicked Wacky features a durable hand tied weed guard that provides anglers the confidence to throw their wacky rig in and around heavy cover. In addition the Wicked Wacky takes the power drop shot to a new level. Gamakatsu designed an innovative hollow tube, hand tied on the shank. Simply run the tag end of your line through the tube, tie on your weight, and pitch into the heaviest cover for a whole new power drop shot presentation.

Worm Hooks, Wire Guard

SIZES	2	1	1/0	2/0	3/0	4/0	5/0
Bronze	LS 65109(4)	65110(4)	65111(4)	65112(4)	65113(3)	65114(3)	65115(3)

Like our popular standard worm hook, only with a weed guard.

Jig Hooks 60° Extra Wide Gap (EWG) Heavy Wire

SIZES	4/0
NS BLACK	25 203414-25
	100 203414-100

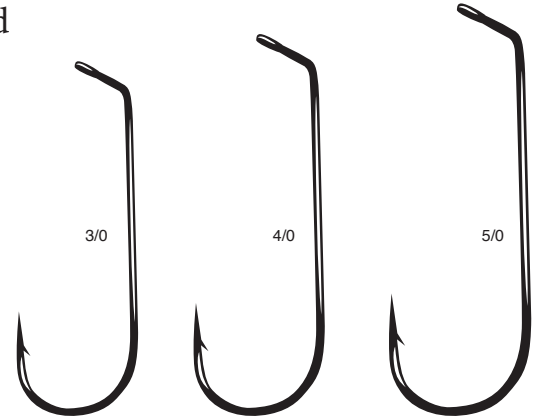

A heavy wire version for today's super line fisherman.

Jig Hooks 60° Flat Eye, Light Wire, Round Bend

SIZES	3/0	4/0	5/0
NS BLACK	25 61413-25	61414-25	61415-25
	100 61413-100	61414-100	61415-100

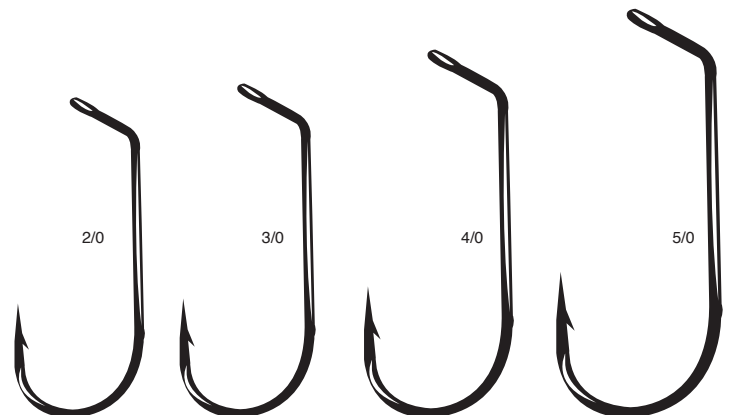

A light wire version for those finesse applications and lighter jigs.

Jig Hooks 60° Flat Eye, Round Bend

SIZES	2/0	3/0	4/0	5/0
NS BLACK	25 59412-25	59413-25	59414-25	59415-25
	100 59412-100	59413-100	59414-100	59415-100

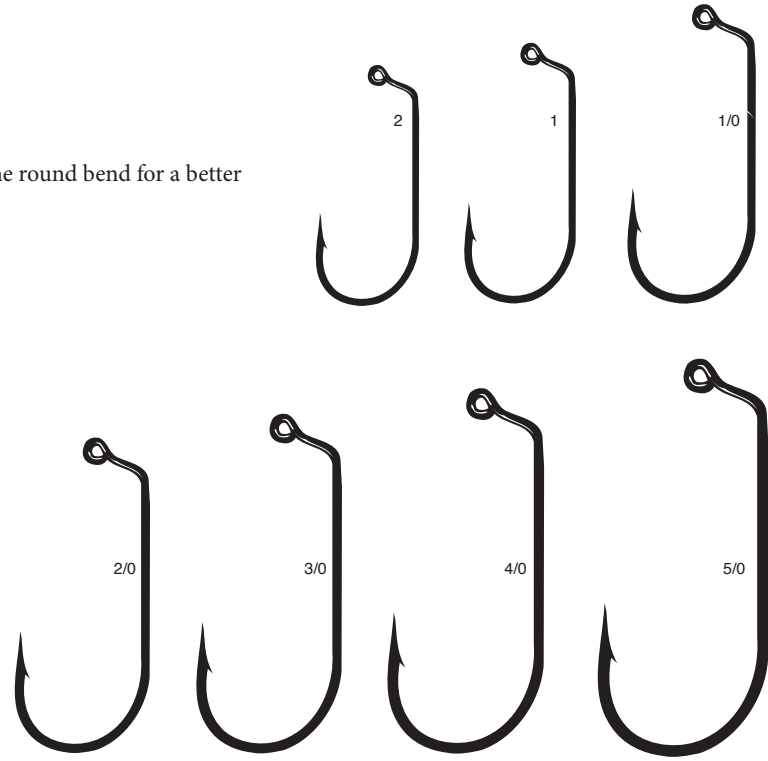

A heavy wire hook in a corrosion resistant NS Black finish for use in fresh or saltwater.

Jig Hooks 60° Round Bend

SIZES	2	1	1/0	2/0	3/0	4/0	5/0
BRONZE	25 29109-25	29110-25	29111-25	29112-25	29113-25	29114-25	29115-25
	100 29109-100	29110-100	29111-100	29112-100	29113-100	29114-100	29115-100

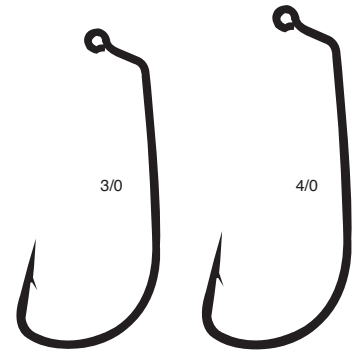

Our standard flipping and pitching jig hook. With the advantage of the round bend for a better bite area.

Jig Hooks 60° Extra Wide Gap (EWG)

SIZES	3/0	4/0
NS BLACK	25 201413-25	201414-25
	100 201413-100	201414-100

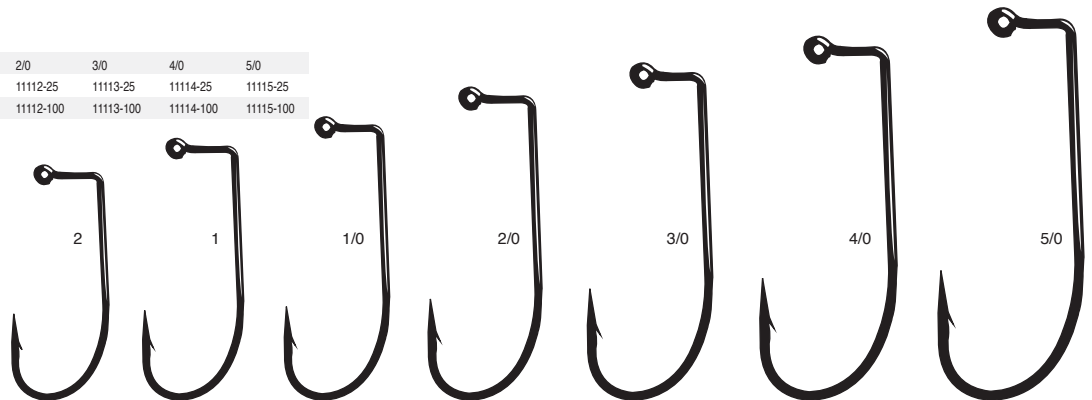

Designed with an extra wide gap for the larger bodied plastics and skirts. The extra wide gap gives you more surface area for better hook ups.

Jig Hooks 90°

SIZES	2	1	1/0	2/0	3/0	4/0	5/0
BRONZE	25 11109-25	11110-25	11111-25	11112-25	11113-25	11114-25	11115-25

Heavy wire and forged for extra strength, this hook is the go to hook for big fish on big baits.

Live Bait Hooks, Heavy Duty Circle, **TOURNAMENT LEGAL**

SIZES	5/0	6/0	7/0	8/0	9/0	10/0	11/0	12/0
Ns Black	LS 210415(6)	210416(5)	210417(5)	210418(4)	210419(3)	210420(3)	210421(2)	210422(2)

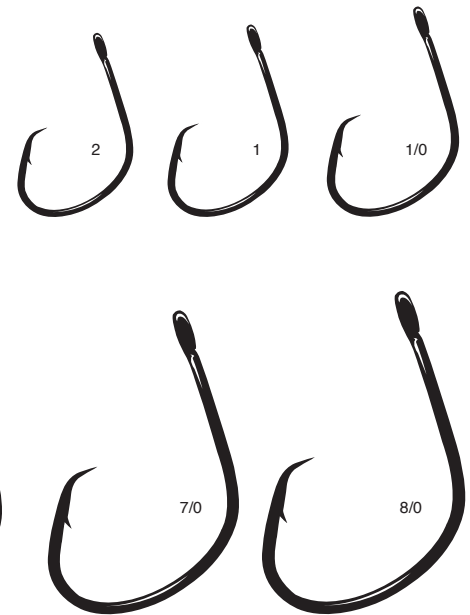

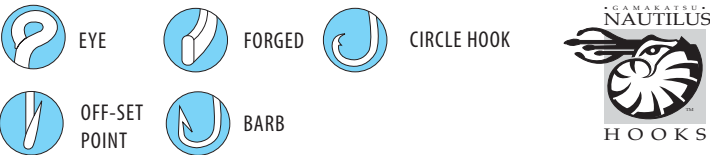

Same design as the Live Bait Heavy Duty, but with a non-offset circle hook point. The perfect hook for giant fish on big chunk baits.

Nautilus Light

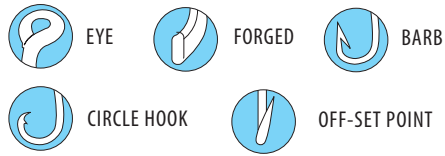

Sizes	2	1	1/0	2/0	3/0	4/0	5/0	6/0	7/0	8/0
Ns Black	332409(8)	332410(8)	332411(7)	332412(6)	332413(5)	332414(5)	332415(4)	332416(3)	332417(3)	332418(3)

A light wire hook that was developed for fishing fragile live baits. Produced from forged high carbon steel, it features a straight eye and offset point for superior hooking performance. The unique circle hook shape is designed to hook and hold which is precisely why more saltwater anglers make Gamakatsu their hook-of-choice. Superior strength, sharpness and design add-up to make a sure bet for live bait and chunk bait anglers from coast-to-coast.

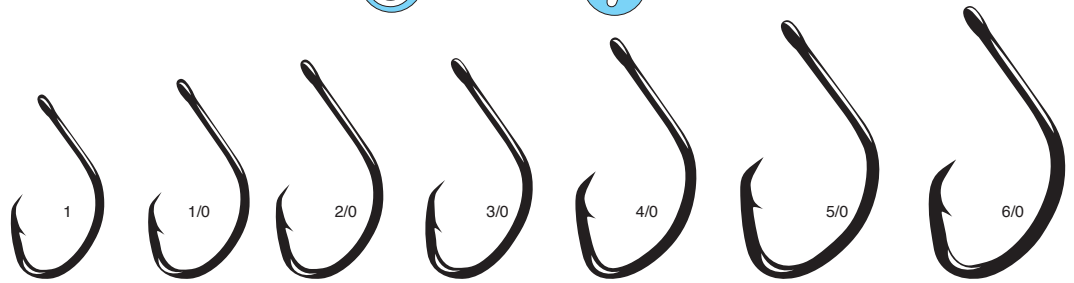

Nautilus Circle Hooks

SIZES	1	1/0	2/0	3/0	4/0	5/0	6/0
Ns Black	LS 42410(8)	42411(7)	42412(7)	42413(6)	42414(6)	42415(5)	42416(5)

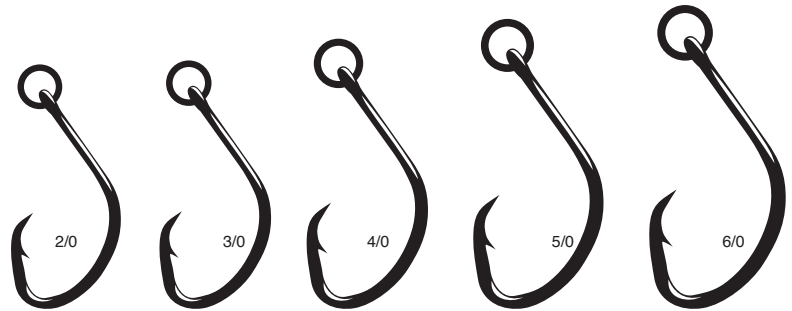

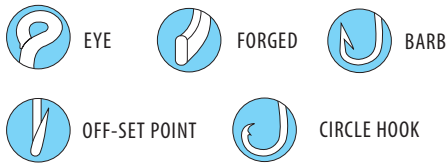

One of the meanest circle hook designs around. The Nautilus grabs its prey and simply doesn't let go. This hook can be used for live bait or chunk bait presentations and has proven its strength many times.

Nautilus Circle With **Solid** Ring

SIZES	2/0	3/0	4/0	5/0	6/0
Ns Black	LS 42412R(5)	42413R(5)	42414R(4)	42415R(4)	42416R(4)

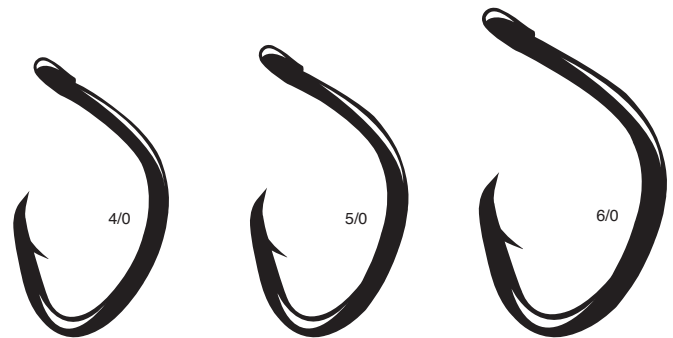

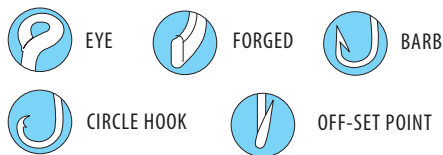

The most popular circle hook with solid ring, grabs its prey and simply does not let go.

Super Nautilus Circle Hooks

SIZES	4/0	5/0	6/0	7/0	8/0	9/0	10/0	11/0
Ns Black	LS 272414(6)	272415(6)	272416(6)	272417(5)	272418(4)	272419(4)	272420(3)	272421(2)

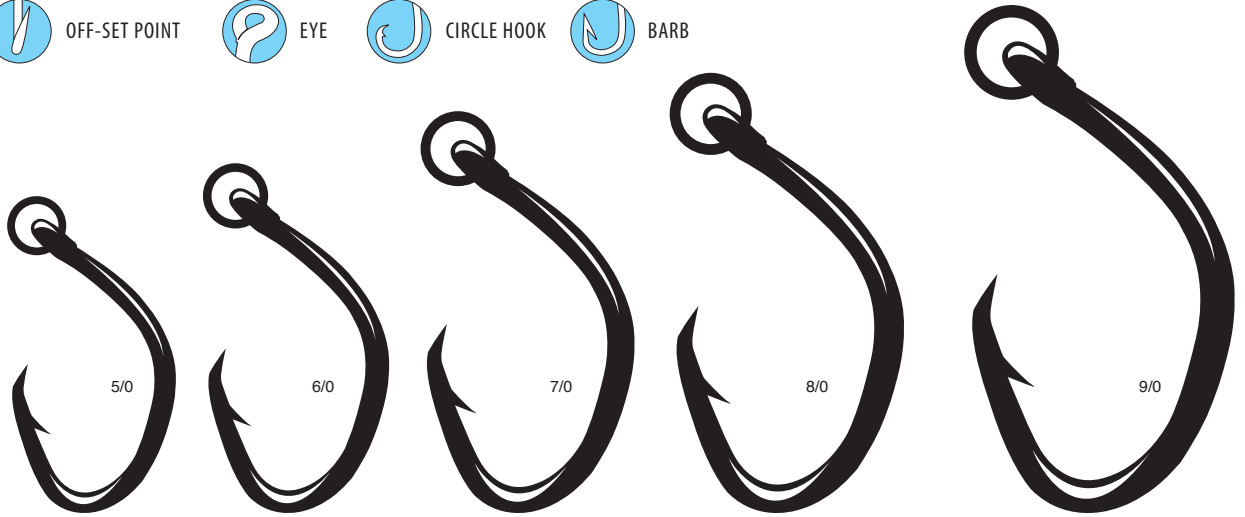

Made of high carbon steel, it's a heavier wire hook than our standard "Nautilus" and forged for quality and added strength. This hook has become a favorite amongst demanding saltwater fishermen.

Super Nautilus Circle Hooks with Ring

SIZES	5/0	6/0	7/0	8/0	9/0
NS Black	LS 272415R(6)	272416R(6)	272417R(5)	272418R(4)	272419R(4)

Our newest addition to the Nautilus series of saltwater hooks. Based on the proven Nautilus circle design, the ringed version will only add to its reliable reputation. The welded stainless steel ring allows the live bait to swim in a more natural presentation and the circle hook design will hook up in the corner of the mouth to avoid deep hook sets and avoid line abrasion from toothy fish.

Octopus Hooks, Circle 4x Strong, Straight Eye

SIZES	1/0	2/0	3/0	4/0	5/0	6/0	7/0	8/0
NS Black	LS 209411(6)	209412(6)	209413(6)	209414(6)	209415(6)	209416(6)	209417(6)	209418(6)
NS Black	25				209415-25	209416-25	209417-25	209418-25

This hook is designed for heavier lines and bigger fish. The offset point makes it a good choice for many chunk bait situations.

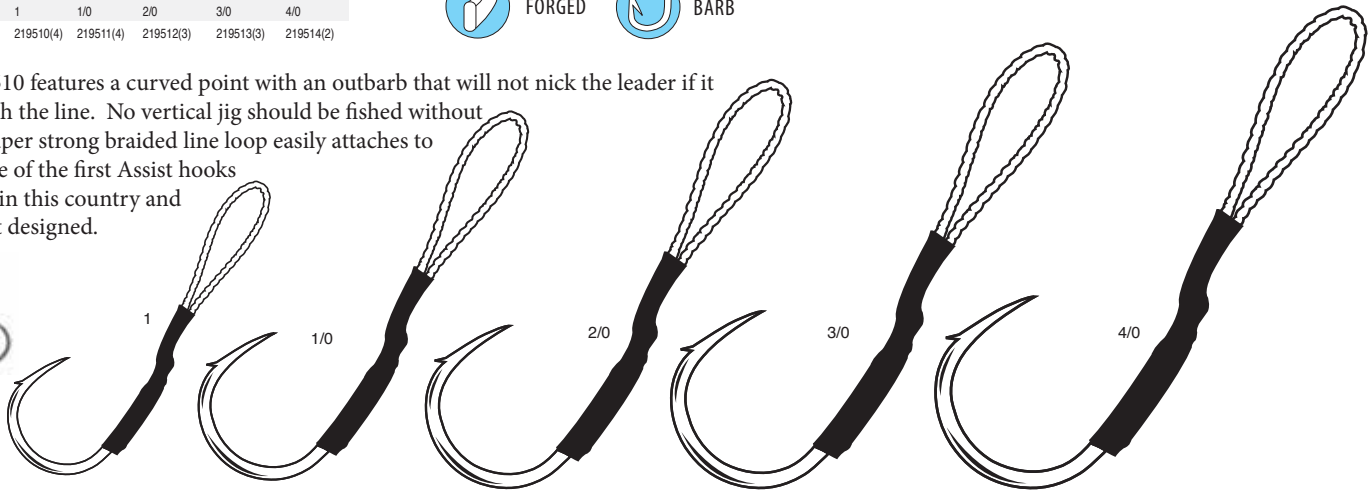

Assist Hook 510

SIZES	1	1/0	2/0	3/0	4/0	
Tin	LS	219510(4)	219511(4)	219512(3)	219513(3)	219514(2)

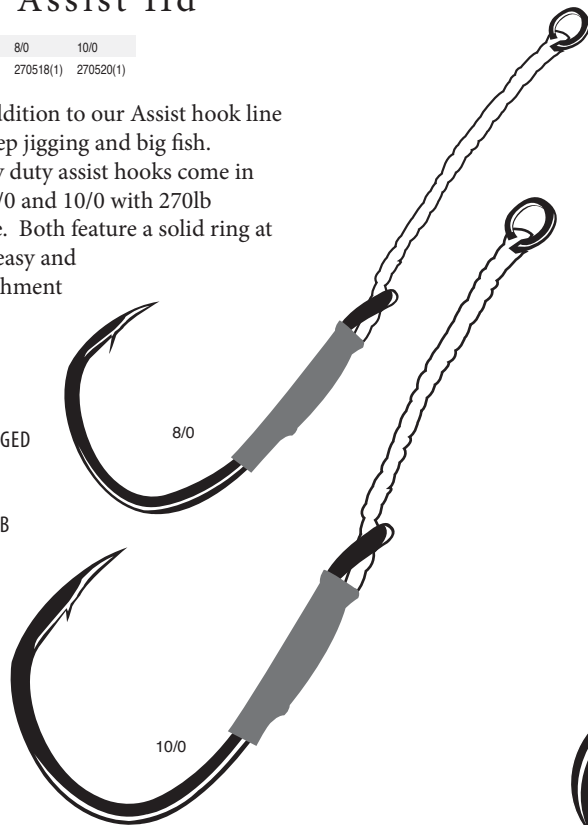

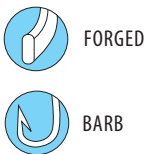

The Assist 510 features a curved point with an outbarb that will not nick the leader if it were to catch the line. No vertical jig should be fished without one. The super strong braided line loop easily attaches to any jig. One of the first Assist hooks introduced in this country and still the best designed.

Tuned Assist Hd

SIZES	8/0	10/0
Tin	LS	270518(1) 270520(1)

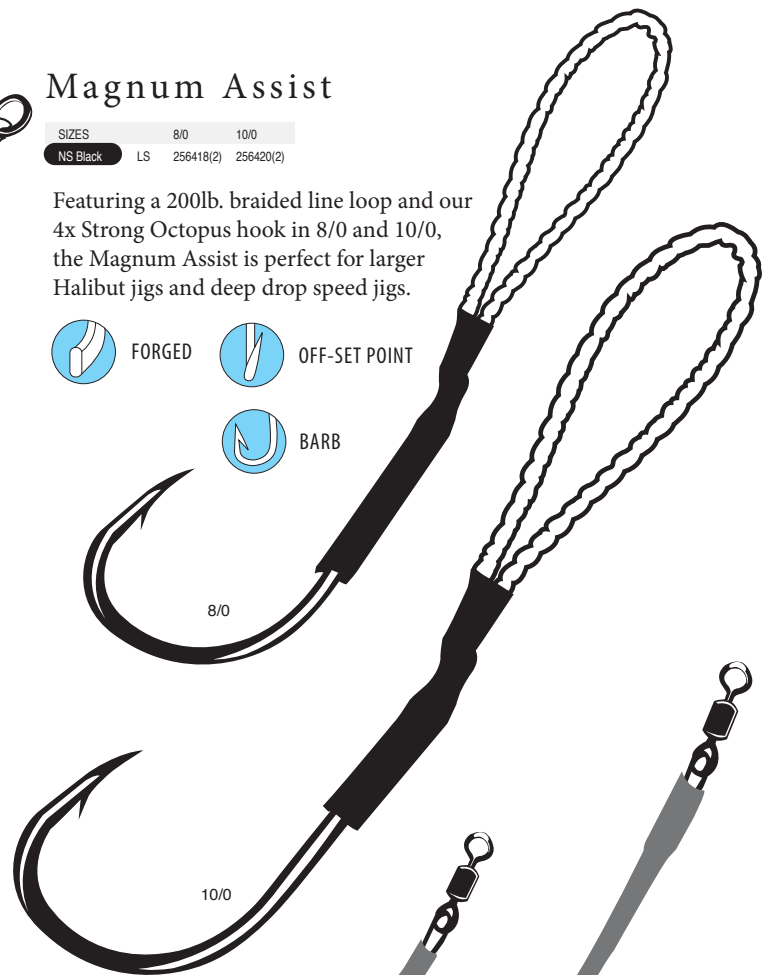

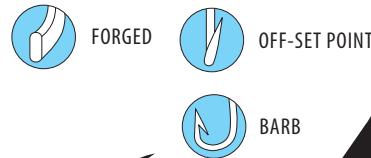

This new addition to our Assist hook line up is for deep jigging and big fish. These heavy duty assist hooks come in two sizes, 8/0 and 10/0 with 270lb braided line. Both feature a solid ring at the top for easy and secure attachment to the jig.

Magnum Assist

SIZES	8/0	10/0
NS Black	LS	256418(2) 256420(2)

Featuring a 200lb. braided line loop and our 4x Strong Octopus hook in 8/0 and 10/0, the Magnum Assist is perfect for larger Halibut jigs and deep drop speed jigs.

Steel Assist With Magic Eye Swivel

SIZES	3/0	5/0
NS Black	LS	269413(2) 269415(2)

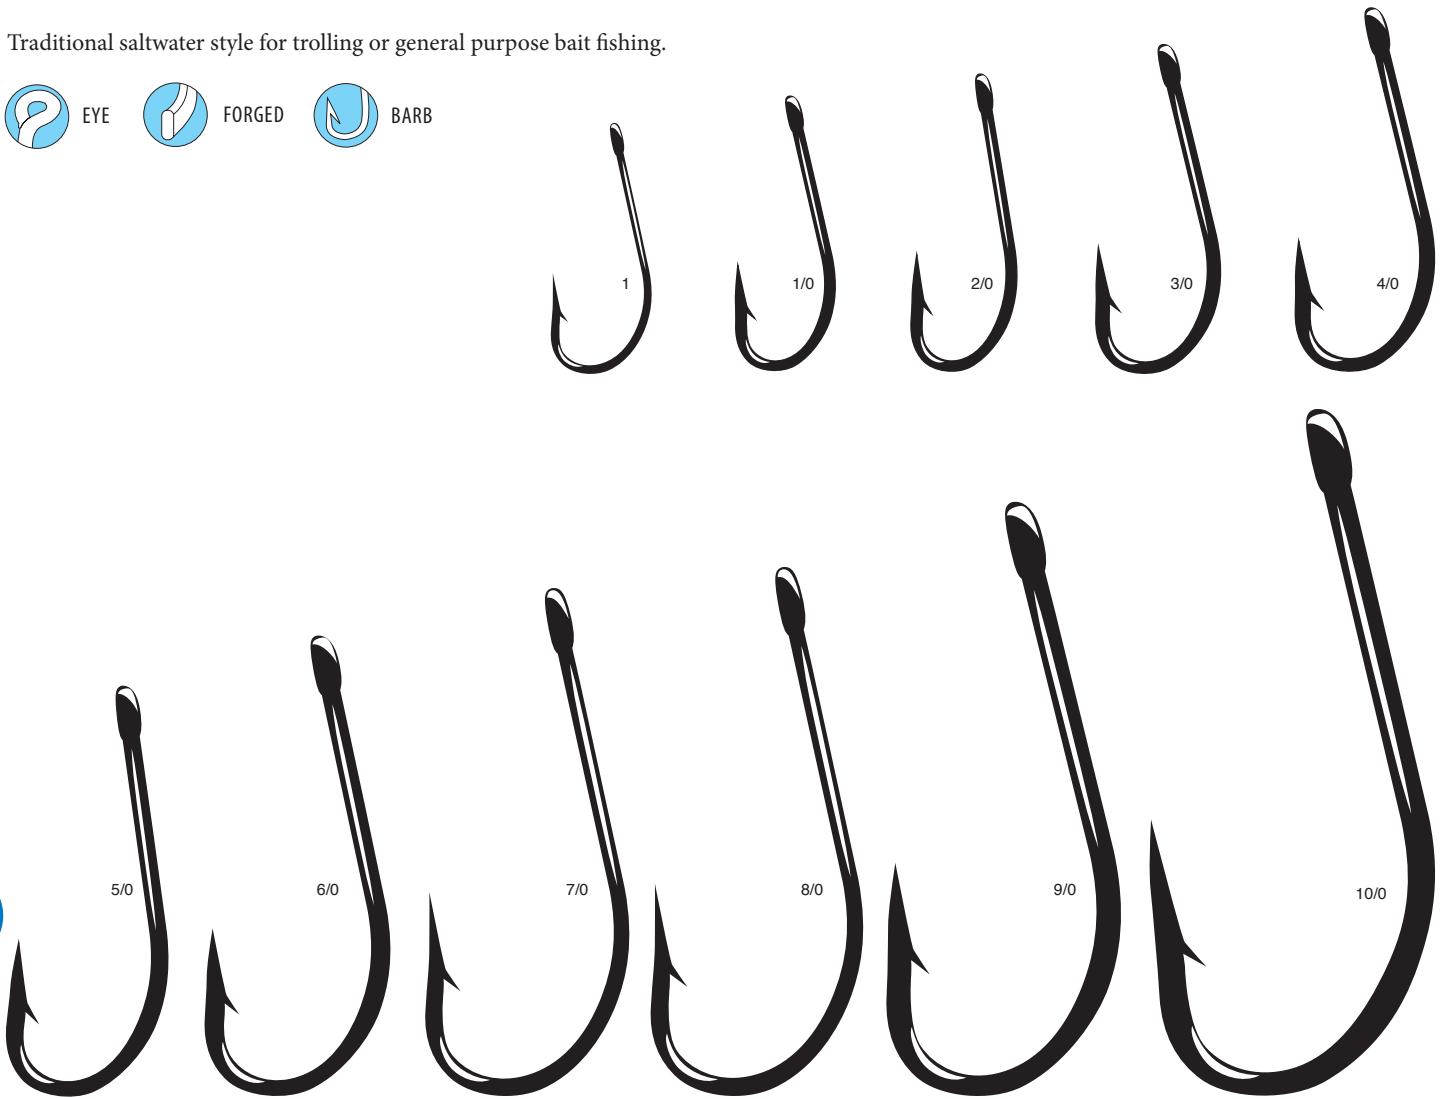

Don't sacrifice your favorite jig to toothy fish like Wahoo and Mackerel. This Assist Hook features our Magic Eye Swivel for fast and easy attachment to the split ring on any jig. No pliers needed. 90lb. wire and a 4x Strong Straight Eye Octopus hook make this the ultimate big game, toothy fish Assist hook. Comes in a 3/0 short version and 5/0 long version for bigger jigs.

O'Shaughnessy Hooks

SIZES	1	1/0	2/0	3/0	4/0	5/0	6/0	7/0	8/0	9/0	10/0
Tin	13010(6)	13011(6)	13012(5)	13013(5)	13014(4)	13015(4)	13016(3)	13017(3)	13018(2)	13019(2)	13020(2)
Tin	13010-100	13011-100	13012-100	13013-100	13014-100	13015-100	13016-50	13017-50	13018-30	13019-30	13020-20

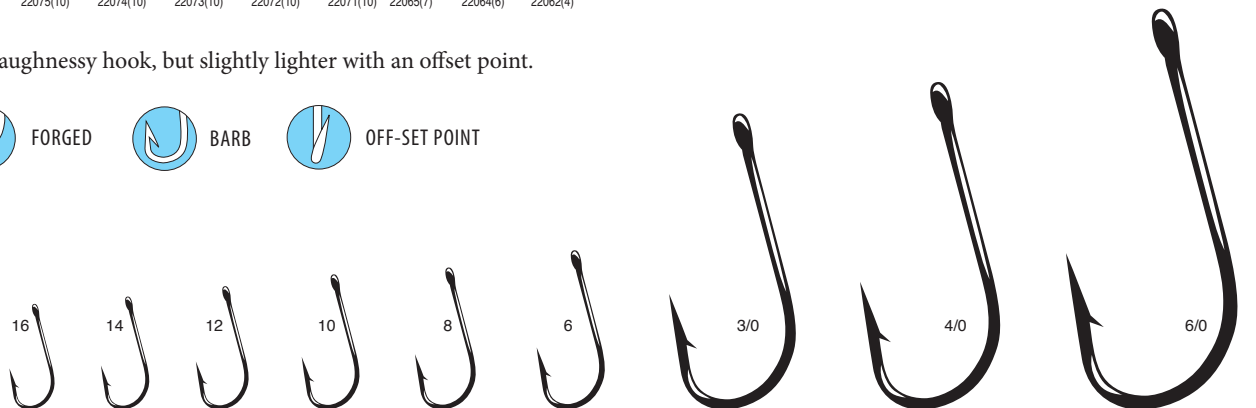

Traditional saltwater style for trolling or general purpose bait fishing.

Sea Hooks

SIZES	16	14	12	10	8	6	3/0	4/0	6/0
Tin	LS 22076(10)	22075(10)	22074(10)	22073(10)	22072(10)	22071(10)	22065(7)	22064(6)	22062(4)

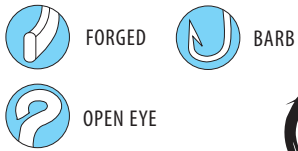

Similar to the O'Shaughnessy hook, but slightly lighter with an offset point.

Single 510

SIZES	1	1/0	2/0	3/0	4/0
Tin	LS 232510(6)	232511(5)	232512(5)	232513(4)	232514(4)
Tin	25 pk 232510-25	232511-25	232512-25	232513-25	232514-25

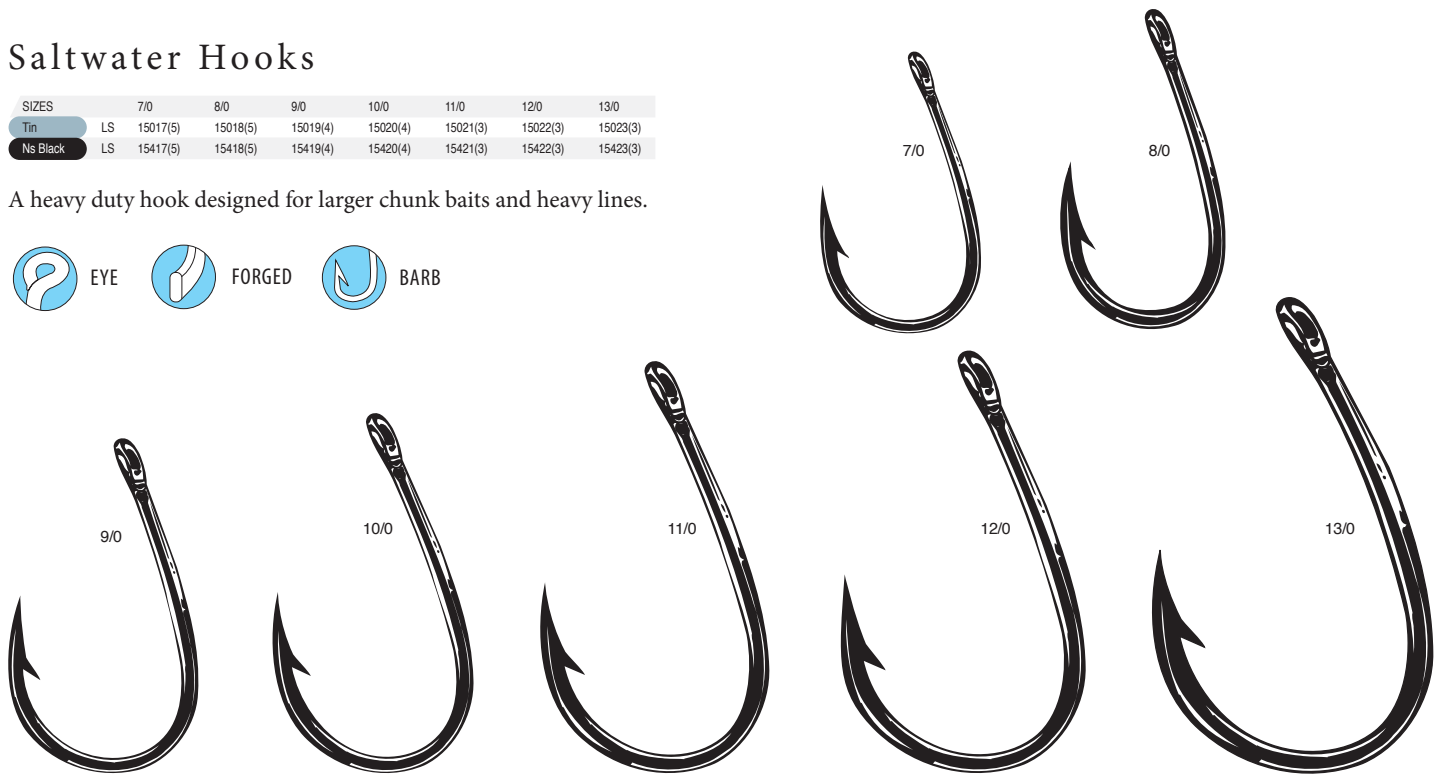

Single 510 has an open eye so it can be used as a replacement hook for spoons, plugs and other lures. It features a sticky sharp curved point with an outbarb for fast penetration and secure hook ups.

Saltwater Hooks

SIZES	7/0	8/0	9/0	10/0	11/0	12/0	13/0
Tin	LS 15017(5)	15018(5)	15019(4)	15020(4)	15021(3)	15022(3)	15023(3)
Ns Black	LS 15417(5)	15418(5)	15419(4)	15420(4)	15421(3)	15422(3)	15423(3)

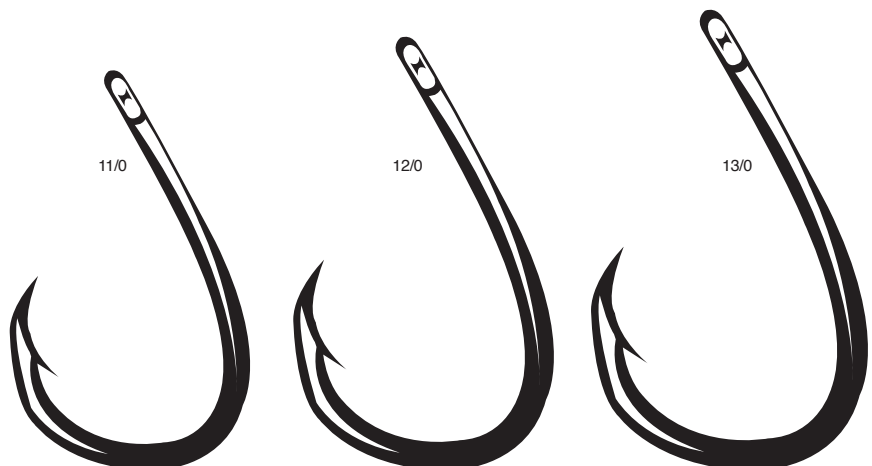

A heavy duty hook designed for larger chunk baits and heavy lines.

Grouper Hooks

SIZES	11/0	12/0	13/0
Tin	LS 44032(3)	44034(3)	44035(2)

As the name implies, this hook is made for pulling big fish from the depths.

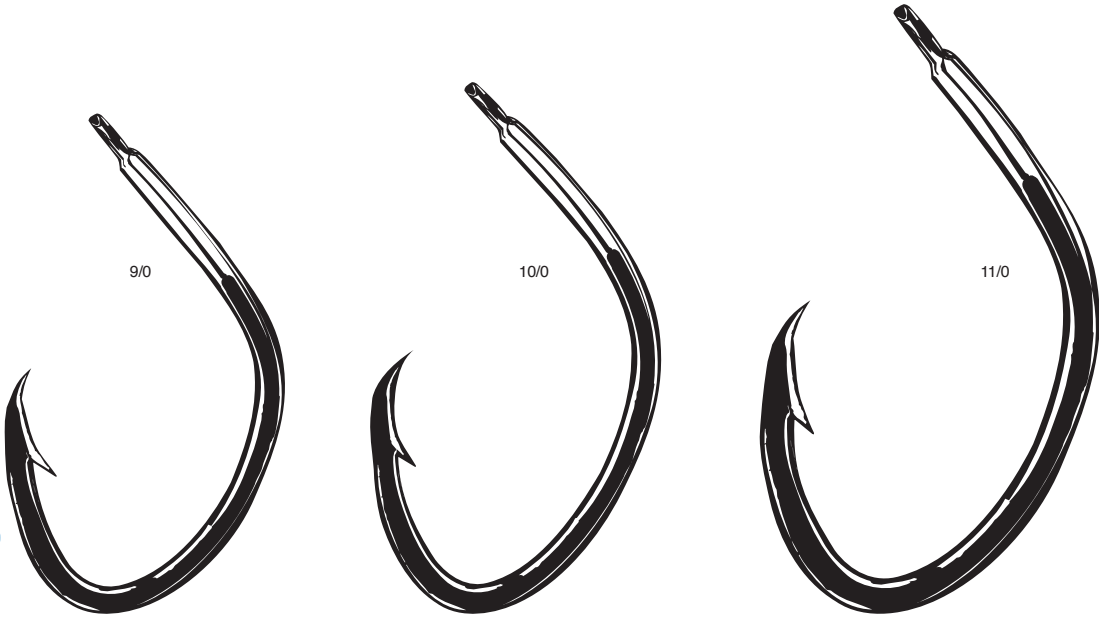

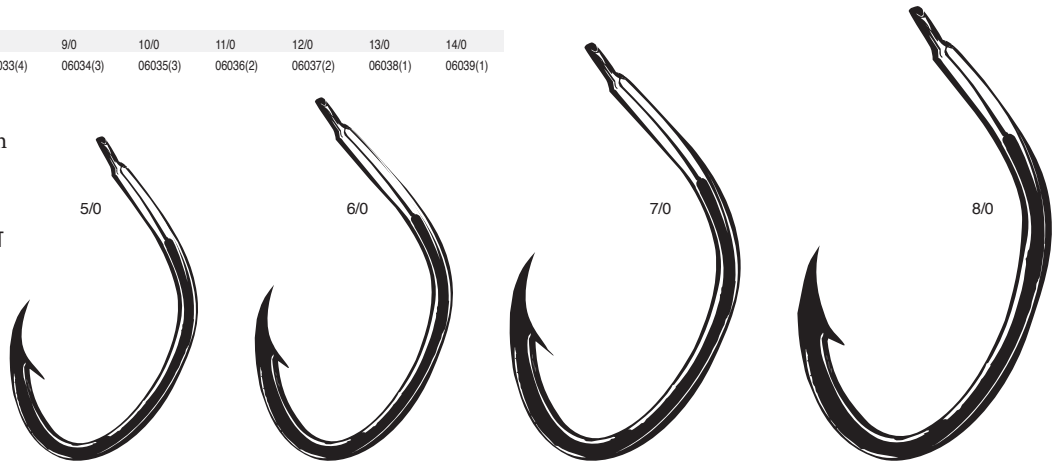

Circle Hooks

SIZES	5/0	6/0	7/0	8/0	9/0	10/0	11/0	12/0	13/0	14/0
TIN	LS 06030(5)	06031(5)	06032(4)	06033(4)	06034(3)	06035(3)	06036(2)	06037(2)	06038(1)	06039(1)

A heavy wire forged circle hook with a stamped eye. Used for chunk baits with steel cable.

Don't let its name fool you! Gamakatsu's new "Flat Blade Spinner Rig" has both the avid kokanee and trout fishing enthusiast in mind when developing this trolling rig! Tested and proven up and down the west coast by our own designer and field tested by numerous pro-stuffers to be a consistent and proven performer. The "Flat Blade Spinner Rig" is sure to be a hit nationwide! It comes in two styles, the popular 2 hook rig with sticky sharp size 4 red "Octopus" hooks for the elusive kokanee. And a single hook rig with the always effective size 6 "Baitholder" hook for baits like red wigglers or night crawlers for trout! If you're into kokanee and trout fishing, and like trolling for them, this new trolling rig is sure to be a hit on a lake near you, how can it not be a part of your fish catching arsenal!

"3 rigs per pack!"

Two red hooks snelled about 1 inch apart to 6 ft piece of premium monofilament. Perfect for fishing salmon egg clusters.

As barbless hook regulations expand, Gamakatsu has met the challenge with a better designed, sharper and stronger Barbless Octopus hook. Designed expressly for the application, Gamakatsu's Barbless Octopus hooks feature a slightly wider gap that provides better fish-holding benefits than traditional barbed Octopus hooks. These hooks comply with state regulations requiring "barbless hooks". Proven effective for a variety of species, Gamakatsu's Barbless hooks are now available in pre-tied mooching rigs. Tied on premium monofilament line with 6 foot leaders, Gamakatsu Barbless Mooching Rigs are packaged individually.

Nose Ring Treble Stinger

Hook Size	Line (LB)	Stock #
6	15	236407-15(2)
6	20	236407-20(2)

Designed with a 2x strong, corrosion resistant NS Black treble hook. A popular rig amongst California Halibut anglers, it eliminates the need for additional stinger hooks and is perfect for any short striking fish.

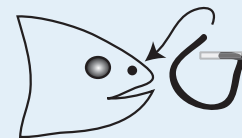

"2 rigs per pack, 48 in. leader!"

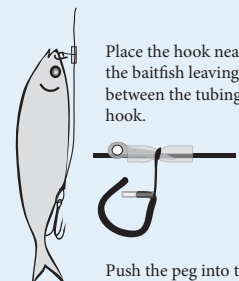

Live Bait Hook or Treble

How to use the nose ring

This rig will adjust to any size bait, holds the bait firm and allows for a natural presentation.

Gently slide the nose ring through the nasal cavity of the baitfish

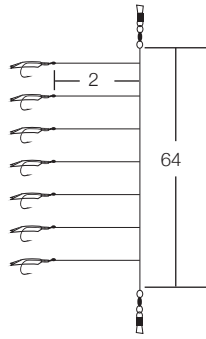

Place the hook near the tail of the baitfish leaving some slack between the tubing and the hook.

Push the peg into the tubing to hold the line in place. A toothpick can also be used.

Weight

Top And Bottom Rig

Hook Size	Line (lb)	Stock #
2	30	238409(1)

Designed primarily for bottom fishing, this rig uses two size 2 NS Black Baitholder hooks attached to a 40lb. leader so they stick out about 4" from the main line and are spaced about 10" apart. It includes a barrel swivel at the top of the rig and a cross lock for easy weight attachment at the bottom.

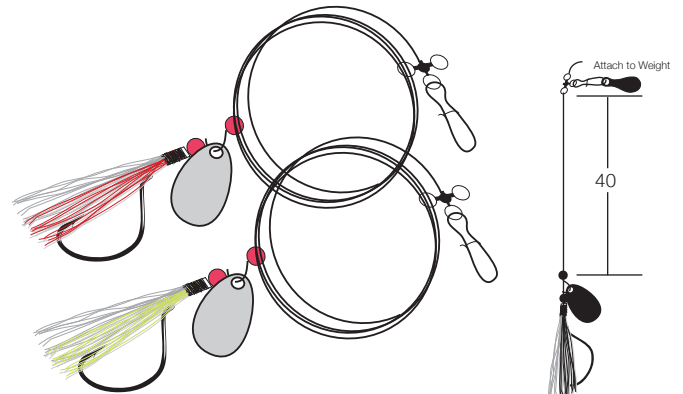

Attach to Weight

Fluke Rig With Teaser

Hook Size	Line (lb)	Stock #
2/0 White/Red	40	239412-RW(1)
2/0 White/Chartreuse	40	239412-CW(1)

Two different color combination fluke rigs available in a size 2/0 hooks with a 40 lb. leader. The Fluke Rigs feature a spinner blade and a teaser made with synthetic hair material that is more tooth resistant and durable in saltwater. The teasers are in either red and white or a chartreuse and white combination with either red or green beads to match. They also feature a 3 way swivel with a crosslock to attach the weight.

Attach to Weight

Russian River Sockeye Rig

Hook Size	Line (lb)	Stock #
2 White/Red	30	285109-WR-30(3)
2 White/Chartreuse	30	285109-WC-30(3)

Tied on 34" of 30 lb. mono with our popular Russian River hook, it's available in two color combinations, red and white, or chartreuse and white.

Striper Rig

Hook Sizes	4/0	5/0	6/0	7/0	8/0
NS Black	305414-40(2)	305415-40(2)	305416-40(2)	305417-40(2)	305418-40(2)

Striper fishermen are a demanding group. Striper anglers have asked for a dependable pre-tied rig to meet their needs and Gamakatsu has answered.

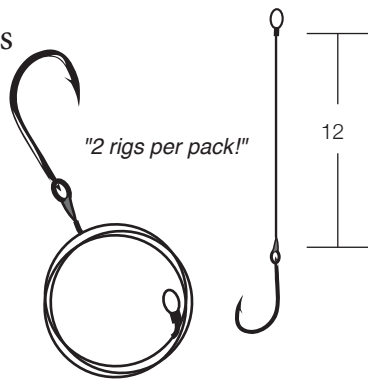

The Striper Rig features a proven Octopus hook, tied on 28" of premium 40 lb. monofilament. The rig also includes a high quality #4 SPRO barrel swivel rated at 130 lb. This rig is sure to give any striper fisherman the confidence they need to catch that trophy of a lifetime.

Steel Leader Rigs

Hook Size	Line (lb)	Stock #
2/0	40	240412(2)

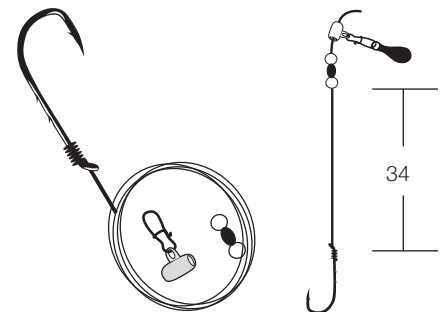

This rig features a heavy duty 2/0 live bait style hook attached to a 40 lb. piece of steel leader. The steel leader is a multi strand wire and has an epoxy coating over the twisted portion in front of the hook to eliminate any sharp edges.

Striper Rig With Sliding Sinker Lock

Hook Size	Line (lb)	Stock #
5/0	80	241415(2)

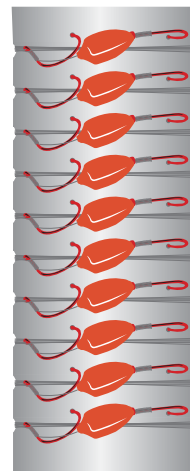

This rig features a 5/0 NS Black Baitholder hook snelled to a 80 lb. clear leader with a 100 lb. barrel swivel and a sliding sinker lock that goes on the main line above the swivel.

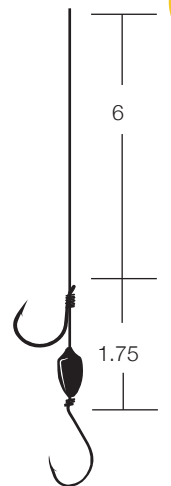

Side Drifting Rig

Hook Size	Line (lb)	Stock #
4 Peach Luminous	8	258308-PL(10)
4 Clown	8	258308-C(10)
4 Rocket Red	8	258308-RR(10)
4 Orange Clown	8	258308-OC(10)
4 Pearl Red	8	258308-PR(10)

Rigged with two of our most proven hooks, a size 4 Red Finesse Wide Gap in front and size 4 Red Octopus hook in back with a Yakima Bait "Winner Body" in the middle for floatation and added attraction. Ten rigs come pre-tied on 6ft of clear premium 8lb. mono neatly wrapped around a 6 inch closed cell foam dispenser. They come in 5 of the most popular fish catching colors, RR-Rocket Red, PR-Pearl Red, PL-Peach Luminous, C-Clown, and OC-Orange Clown.

Peach Luminous
Clown
Rocket Red
Orange Clown
Pearl Red

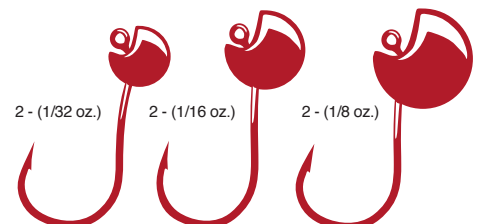

Wacky Head

SIZES	2	2	2	
WEIGHT	LS	1/32	1/16	1/8
	282309-1/32(4)	282309-1/16(4)	282309-1/8(4)	

Gamakatsu is known for its innovative and functional designs, the "Wacky Head" jig is no exception. With its unique flat shape, the "Wacky Head" will entice the finickiest of biters with its side to side rolling type action. Also to add to its attraction is the red epoxy head, and a short shank wide gap designed hook.

Rigs, Snells, Jig Heads, Floats

Skip Gap Head

SIZES	3/0-1/8	3/0-3/16	4/0-3/16	4/0-1/4
Brown	293413-BR-1/8(4)	293413-BR-3/16(4)	293414-BR-3/16(4)	293414-BR-1/4(4)
Green Pumpkin	293413-GP-1/8(4)	293413-GP-3/16(4)	293414-GP-3/16(4)	293414-GP-1/4(4)

Gamakatsu has developed it's own jig head based on the Skip Gap worm hook. It has the same innovative bend that holds your bait secure on the hook. There are no barbs or pegs that can tear apart a small finesse worm. The unique bend lends itself to simplicity and will change the way you shaky fish.

Stand Up Alien Head

SIZES	3/0-1/8	3/0-3/16	3/0-1/4	3/0-5/16
NS Black	309413-BK-1/8(4)	309413-BK-3/16(4)	309413-BK-1/4(4)	309413-BK-5/16(4)
Green Pumpkin	309413-GP-1/8(4)	309413-GP-3/16(4)	309413-GP-1/4(4)	309413-GP-5/16(4)

Looking for the quintessential stand-up jig head? Gamakatsu's developed the answer with its all-new Stand-Up Alien Head. Perfect for rock or hard bottom fishing, The innovative keeper pin holds plastics without tearing. The benefit is a better presentation, more casts and more mileage out of your plastics. Features a NS Black finesse hook and is available in Green Pumpkin and Black jig heads.

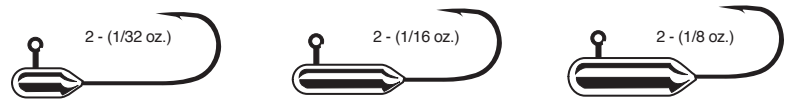

Tube Head

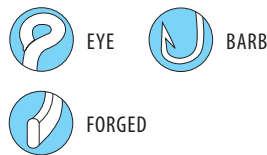

SIZES	2	2	2
WEIGHT LS	1/32	1/16	1/8
	503409-1/32(5)	503409-1/16(5)	503409-1/8(5)

The ultimate finesse tube head design for precise presentations and smaller baits. Comes on a strong, sticky sharp NS black hook that ensures solid hook ups.

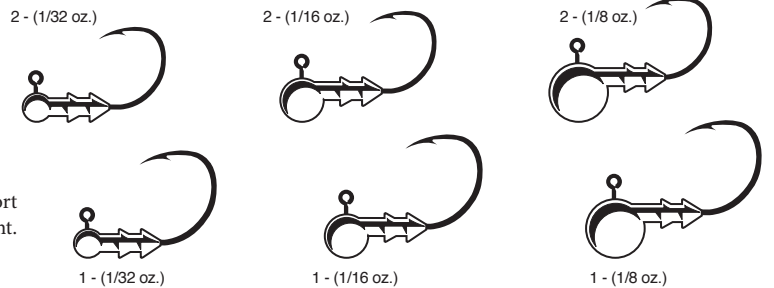

Round 211

SIZES	2	2	2
WEIGHT LS	1/32	1/16	1/8
	501409-1/32(5)	501409-1/16(5)	501409-1/8(5)

SIZES	1	1	1
WEIGHT LS	1/32	1/16	1/8
	501410-1/32(5)	501410-1/16(5)	501410-1/8(5)

A totally unique design with a short shank and a matte black beak point. Great for live and finesse baits.

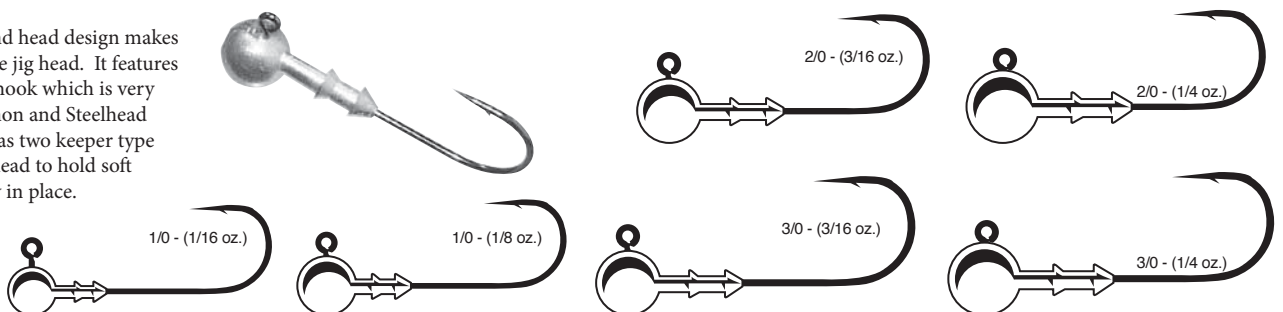

Round 26

SIZES	1/0	1/0	2/0	2/0	3/0	3/0
WEIGHT LS	1/16	1/8	3/16	1/4	3/16	1/4
	500411-1/6(5)	500411-1/8(5)	500412-3/16(5)	500412-1/4(5)	500413-3/16(5)	500413-1/4(5)

The standard round head design makes this a very versatile jig head. It features our 604 series jig hook which is very popular with Salmon and Steelhead anglers and also has two keeper type rings behind the head to hold soft plastic baits firmly in place.

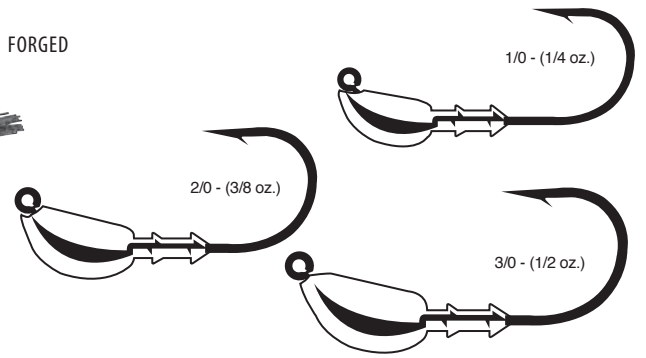

Cobra 27

SIZES	1/0	2/0	3/0
WEIGHT LS	1/4	3/8	1/2
	504411-1/4(5)	504412-3/8(5)	504413-1/2(5)

5 Nylon Brush Guards Included

Named for its unique head design, the Cobra 27 comes with optional nylon brush guards for weedless presentations. It features a very stout 60 degree jig hook and is great for building your own Bass jigs or for fishing plastic baits in saltwater for inshore fish like Redfish and Speckled Trout.

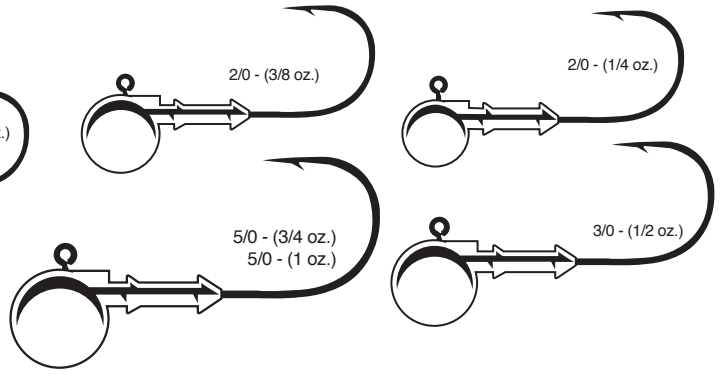

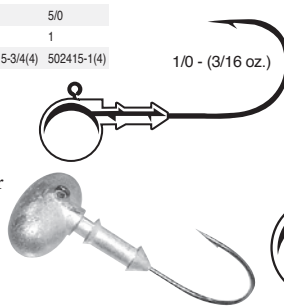

Football 24

SIZES	1/0	2/0	2/0	3/0	5/0	5/0
WEIGHT LS	3/16	1/4	3/8	1/2	3/4	1
	502411-3/16(5)	502412-1/4(5)	502412-3/8(5)	502413-1/2(5)	502415-3/4(4)	502415-1(4)

The Football 24 is the choice when fishing around rock or ledges. It is designed to be very snag resistant.

The 24 is the way to go when dragging a Hula Grub or Beaver on deep structure. The 24 features a fine wire hook for fast penetration.

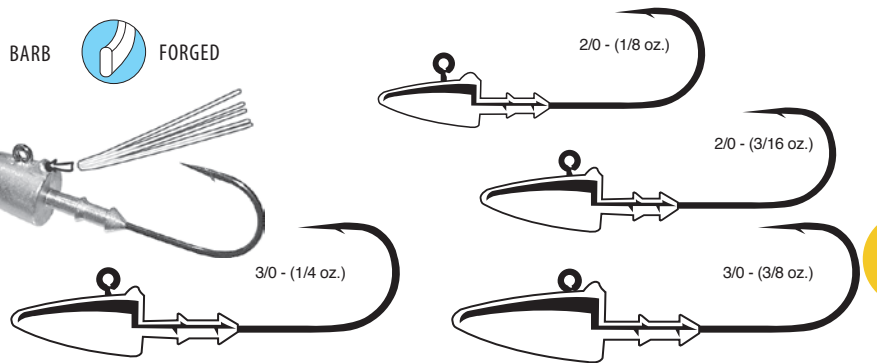

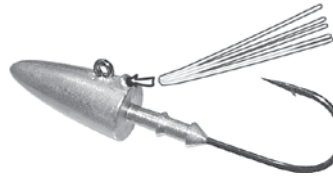

Darter 26

SIZES	2/0	2/0	3/0	3/0
WEIGHT LS	1/8	3/16	1/4	3/8
	505412-1/8(5)	505412-3/16(5)	505413-1/4(5)	505413-3/8(5)

5 Nylon Brush Guards Included

This jig comes with optional nylon brush guards and features a heavy duty 90 degree jig hook. The streamlined head design makes it ideal in both fresh and saltwater applications.

Easily the most unique lighted float on the market. The soft rubber tip makes it extremely durable and the visual range of over 100 yards makes it the most visible at night. One little Gamakatsu pin battery can light this float for well over 24 hours of continuous use.

Firetip Float Small: GF001-S(1)

Smaller than actual size.

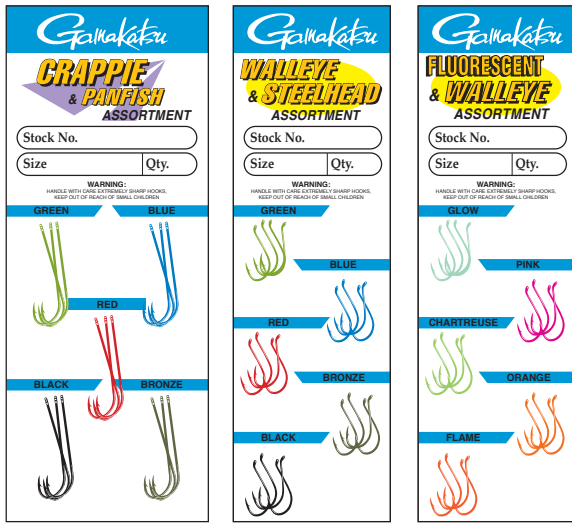

Gamakatsu Finger Protector

Protects your finger from the abuse of stripping line all day. One size - GF003(1)

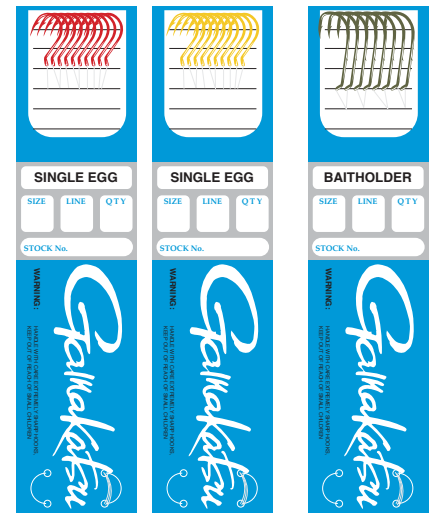

Smaller than actual size.

Gamakatsu has been making premium quality hooks since 1955. Every hook is made using Gamakatsu's own high quality, high carbon steel and is meticulously crafted to the highest of standards. Unlike other hook manufacturers, Gamakatsu hooks are made in their own facility which is one of the most technologically advanced in the world and their consistency is unmatched. What you'll find in this catalog are 42 styles of super sharp, super strong fly hooks made for the serious fly tyer and fly angler who will settle for nothing but the best. While an investment in a good fly rod, fly reel, fly line and the knowledge on how to properly use them can enhance the fly fishing experience, the hook is the one piece of equipment at the end of it all that has to hang on to the object of pursuit. Don't settle for anything less than Gamakatsu quality.

The Executive Series

Executive Series fly hooks offer some very unique designs like the R10B Retainer Bend and the C13U Keel Balance. Hooks like the S10 series of hooks have beak points that allow for effortless penetration, especially with light tippets and a slightly wider gap. They also have a shank length just a little longer than standard dry fly hooks. While the R10B and C13U are matte black, the B10S Stinger hooks and the rest of the Executive series have a beautiful NS Black finish that not only looks good, but is also very corrosion resistant. There's no other hook series like it.

Traditional Series

The Traditional Series hooks are mostly all bronze finished, have needle points, and are designed to match up in style and size with other popular hook brands. The key difference being the quality of the steel used in them and the sharpness of the hook. The Traditional Series hooks also feature the traditional Salmon/Steelhead tapered loop up eye hooks, but in non-traditional finishes like Blue, Red, and Green in addition to the traditional NS Black finish. The styles all match, but the quality is unmatched.

Saltwater Series

By far and away the finest selection of Saltwater fly hooks available. 9 styles featuring our most popular SC15 and other hooks ranging in sizes from 18 to 10/0. The SC15 is used for many different patterns but is also a great hook for tube flies. The SP11-3L3H makes a great popper hook. There's a hook style for every saltwater application imaginable. Every Saltwater Series fly hook is made from the highest quality high carbon steel and has a durable tin plating or NS black finish for corrosion resistance. Because of the steel used, even the 3x strong hooks are surprisingly light for their size and their strength is unparalleled. These hooks will hold a point much better than stainless steel hooks and are sticky sharp right out of the bag. No sharpening is ever needed before fishing with a Gamakatsu hook and because they're not stainless, they will eventually corrode out of a fish's mouth if the hook is taken deep and cannot be removed. From the flats to blue water, there's no hook selection better than this.

Executive Series

"The most advanced fly hook available"

- Corrosion Resistant N.S. Black Finish
- Beak Points
