## **RUNAWAY SUCCESS!**

What a year. The Scatter Rap was the biggest launch in the history of Rapala with more than one million Scatter Raps sold worldwide in 2013. Over 1.5 million Scatter Rap Google® search results combined with over 50 million gross media impressions had anglers buzzing about the revolution in fishing. Not just talk, they caught more than 1,000 game fish during the 5-day Scatter Rap Challenge (Google® it) and landed an IGFA World Record in its first year. Satisfied? Absolutely. Relaxed? Never! Look over this years collection to see what's going to be setting records next.

# SCATTER RAP® CRANK SHALLOW

NEW FOR 2015

Just like a spooked bait fish fleeing for it's life in the top of the water column, the Scatter Rap® Crank Shallow brings Scatter Rap action to the 4-5 foot depth range. Swimming with the already legendary aggressive, evasive, erratic Scatter Rap action, the new Scatter Rap® Crank Shallow is on the front lines of this bass-fishing revolution. 14 original crank colors plus four brand new "Ike's Custom Ink" colors will make fish rise up and take notice.

# SCATTER RAP® CRANK DEEP

NEW FOR 2015

Perfectly mimicking a spooked bait fish fleeing for it's life, the Scatter Rap® lures have changed the way anglers fish in just one year. Now Rapala brings the Scatter Rap action to the deep side of the water column. Swimming with the celebrated Scatter Rap action, the new Scatter Rap® Crank Deep is built to dive quickly and work in the 10 foot depth range. Four new "Ike's Custom Ink" colors add a deeper breadth to the stellar original 14 colors.

## SCATTER RAP® SHAD

NEW SIZE FOR 2015

• • • • •

The most prolific bait fish across the country is mimicked perfectly with the Scatter Rap® Shad. Body profile, color patterns and the evasive action of a bait fish fleeing attack make this lure preferred by anglers everywhere. Cast or trolled, this all-species bait can be worked slow in cool water with incredible results, then sped up for use when water temps begin to rise.

## SCATTER RAP® JOINTED

NEW FOR 2015

• • • • •

Building on the classic articulated body style, the Scatter Rap® Jointed swims with an irresistible, seductive action.

The jointed body combined with a Scatter Lip takes this action to the "Nth" degree, triggering strikes from otherwise uninterested or hesitant fish. The undulating action created by the body style and Scatter Lip loses, then regains tracking, often the moment many fish strike.

BALSA XTREME™ WAKING MINNOW

# BX™ WAKING MINNOW

NEW FOR 2015

A surface waking bait that swims with such incredible performance has to be built this tough. Just one cast and every angler will see the brilliance in it's broad waking action and a closer look at the lure itself reveals it's superior rugged design. Lively balsa core with a tough, durable copolymer shell give it the ability to get hammered all day long. Easy casting, fish this with a slow retrieve for a dynamic flashing, rolling action.

# CLASSIC VIBRAX®

NEW COLORS FOR 2015

The Classic Vibrax gets a new look. Flashy scale patterns and coordinated UV tipped blades adorn the fabled flaw-free plating, fine tolerances and super-sharp hooks atop the low frequency emitting patented two-part body.

Hex scale pattern adds realistic flash • UV finished tips reflect more light energy, strengthening the lures visibility  
 Inline blade design runs 2 to 6 feet • Machined brass bell • Stainless steel shaft

Proper size siwash included.

# KWIKFISH®

NEW COLORS FOR 2015

The Kwikfish is an excellent trolling and slow back trolling plug for all medium to large size game fish. The **K Series** can be adjusted for slow or fast water conditions. The **X Series** of Kwikfish swim with a wider, aggressive action even in fast water. Fixed eyelets eliminate the need for tuning.

High action • Stays down in fast water • Stainless steel split rings • Extra-strong round-bend VMC® hooks

# HYDRO VIBE HOOCHIE

NEW FOR 2015

This unique design allows for increased vibration as water passes through the "vented" blade. Tests have shown that less speed is required to rotate the Hydro Vibe blade when compared to other solid blades, allowing the rig to be pulled at even slower speeds for maximum fishability. Features an acrylic bullet head, tinsel & vinyl combo skirt that sparkles and swims through the water attracting all species of gamefish.

Two metal bearing beads support the clevis for maximum blade spin & rod tip response • Light stainless steel wire shaft and rigid hook design provides strength and full body vibration • Extra-strong Perma Steel® VMC® treble hook

# NEEDLEFISH

NEW COLORS FOR 2015

The elongated thin-blade design of the Needlefish makes it a top performer for trout trolling at all speeds. Hyperactive in nature, the addition of the metal flipper tail, adds a small touch of erratic flash fish can't resist.

UV Bright finish reflects more light energy, strengthening the lures visibility • Corrosion-resistant finishes  
Metal flipper tail adds flash and enhanced slow trolling performance • Top trolling performer for Trout & Kokanee

# POPPER PRO

NEW FOR 2015

Traditional popping action with extraordinary results. Versatile design allows you to fish a wide variety of techniques; pop on the top, slash and stall and classic walk the dog. Precisely weighted for maximum casting distance. In-line hook design for optimum swimming action, point exposure and hook set. Constructed for pelagic gamefish.

**PP130:** Rugged Stainless Steel through wire construction • Featuring New Heavy-Duty In-Line VMC® Hooks (see pg 28)

**PP180:** Rugged Stainless Steel Pin and Swivel Rigging • Featuring New Heavy-Duty In-Line VMC® Hooks (see pg 28)

# SURFACE PRO

NEW FOR 2015

Extremely versatile top water plug for all game fish species. Walk the dog; slash; rip and stop; slow or fast retrieve. Precisely weighted for maximum casting distance. In-line hook design for optimum swimming action, point exposure and hook set.

Heavy-Duty Oval Split Rings • Laser Cut Plate Hook Hangers • Featuring New VMC® Heavy-Duty In-Line Hooks (see pg 28)

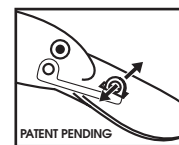

# SPEED PRO

NEW COLOR FOR 2015

Constructed for pelagic gamefish. The patent pending "Auto-Tune" free-moving line tie design is self-centering, automatically aligning the lure for consistent action at very high trolling speeds, up to 15 knots, with optimum action at 6-10 knots.

At 15 knots the lures smooth swimming action allows it to be fished on lighter line, even with a light drag setting.

Heavy-Duty Oval Split Rings • Laser Cut Plate Hook Hangers • VMC® Heavy-Duty Perma Steel® Hooks

**SELF-TUNING LINE TIE**  
Free-moving line tie design is self-centering, automatically aligning the lure for a consistent action.
